The Gazette is the HOME paper of the Pikes Peak region because it is all that a newspaper should be clean, newsy and uptodate.

COLORADO SPRINGS GAZETTE

Sun rises today, 5:51, sets 5:40. Mean temperature yesterday, 44. Weather, today, fair. Sunshine yesterday, 18 per cent of possible.

NO. 10,601—38TH YEAR. COLORADO SPRINGS, COLO., WEDNESDAY, MARCH 30, 1910. PRICE FIVE CENTS.

MINERS WILL STRIKE IF HIGHER WAGES ARE REFUSED

They Offer to Continue Negotiations With Operators on Other Questions.

ULTIMATUM IS ISSUED

Decisive Action Taken by Union's Committee After Failure of Joint Conference.

CINCINNATI, March 29.—Only immediate increases in wages will prevent numerous and widespread strikes in the bituminous coal mines, according to action taken by a special committee of the United Mine Workers here late today, following the final disagreement and dissolution of the joint conference of the central competitive field.

The terms proposed by the miners for the continuation of work after expiration of the present agreements at midnight Thursday will admit of no compromise so far as wages are concerned. On other questions there is room for agreement and the general trend of opinion tonight is that no lengthy suspension will be the result except in a few fields.

The most threatening aspect overshadows Pennsylvania and Illinois sections.

Briefly the miners demand that the operators agree to pay the advanced wages of five cents a ton on pick mined screen coal, with proportionate advances for other methods of mining and outside labor, as a prerequisite to negotiations on the other questions.

With advance in pay assured, work may be continued in the mines affected pending solution of minor points. Provided the national executive board of the union approves action to this effect by district officers.

Wage Demands Imperative

The national board is made the final power so far as the union is concerned, but it is expressly forbidden to modify wage demands.

A provision is made that agreements may be signed by states, districts or groups of districts. This may have a beneficial effect in Ohio and Indiana. Only a few operators in these states, it is thought, will hold out against the advance. The provision may also work beneficially in the southwestern fields.

Most of the operators have left the city except the Pennsylvania men and those who remained tonight expressed satisfaction with the outlook.

The Ohio and Indiana operators believe each district will reach an agreement.

The international executive board of the miners will take up its work in Indianapolis tomorrow.

Statement by President Lewis.

Late tonight President Lewis issued a signed statement reviewing the outlook and predicting peace except in a few instances. He said in part:

"The failure to reach an agreement in the tristate joint convention which has been in session for three weeks, will have no serious effect on the min-

(Continued on Page Three.)

BELATED BLIZZARD SWEEPS THE WEST

WIRES DOWN IN COLORADO AND KANSAS.

Communication With East Maintained Only by Circuitous Route. Trains Delayed.

DENVER, March 29.—Storm conditions throughout the Rocky mountain region showed signs of improvement tonight. The high winds that have prevailed for the last two days had subsided and, except in the higher altitudes, snow had quit falling, while many sections of Colorado, notably the fruit growing regions, reported stationary or rising temperature.

The local weather bureau tonight issued a forecast that tomorrow would witness the passing of the storm; that the day would be clear with possibly lower temperatures. Latest reports from the fruit districts of Colorado indicate that practically no damage has been done by today's storm and cold, while from many sections come reports of incalculable benefit to ranchers on account of the moisture precipitated.

The most serious damage from today's storm came from prostration of telegraph and telephone wires in Colorado and Kansas. Early this morning Denver was practically cut off from telegraphic communication with the east and this condition showed little improvement at midnight.

Circuitous Telegraphing.

Practically the only means of communication was a single wire over a circuitous route from Chicago through St. Paul, Bismarck, Helena and Salt Lake to Denver put in operation about 9 o'clock tonight.

In some portions of the mountains train service was seriously delayed though no serious accidents were reported.

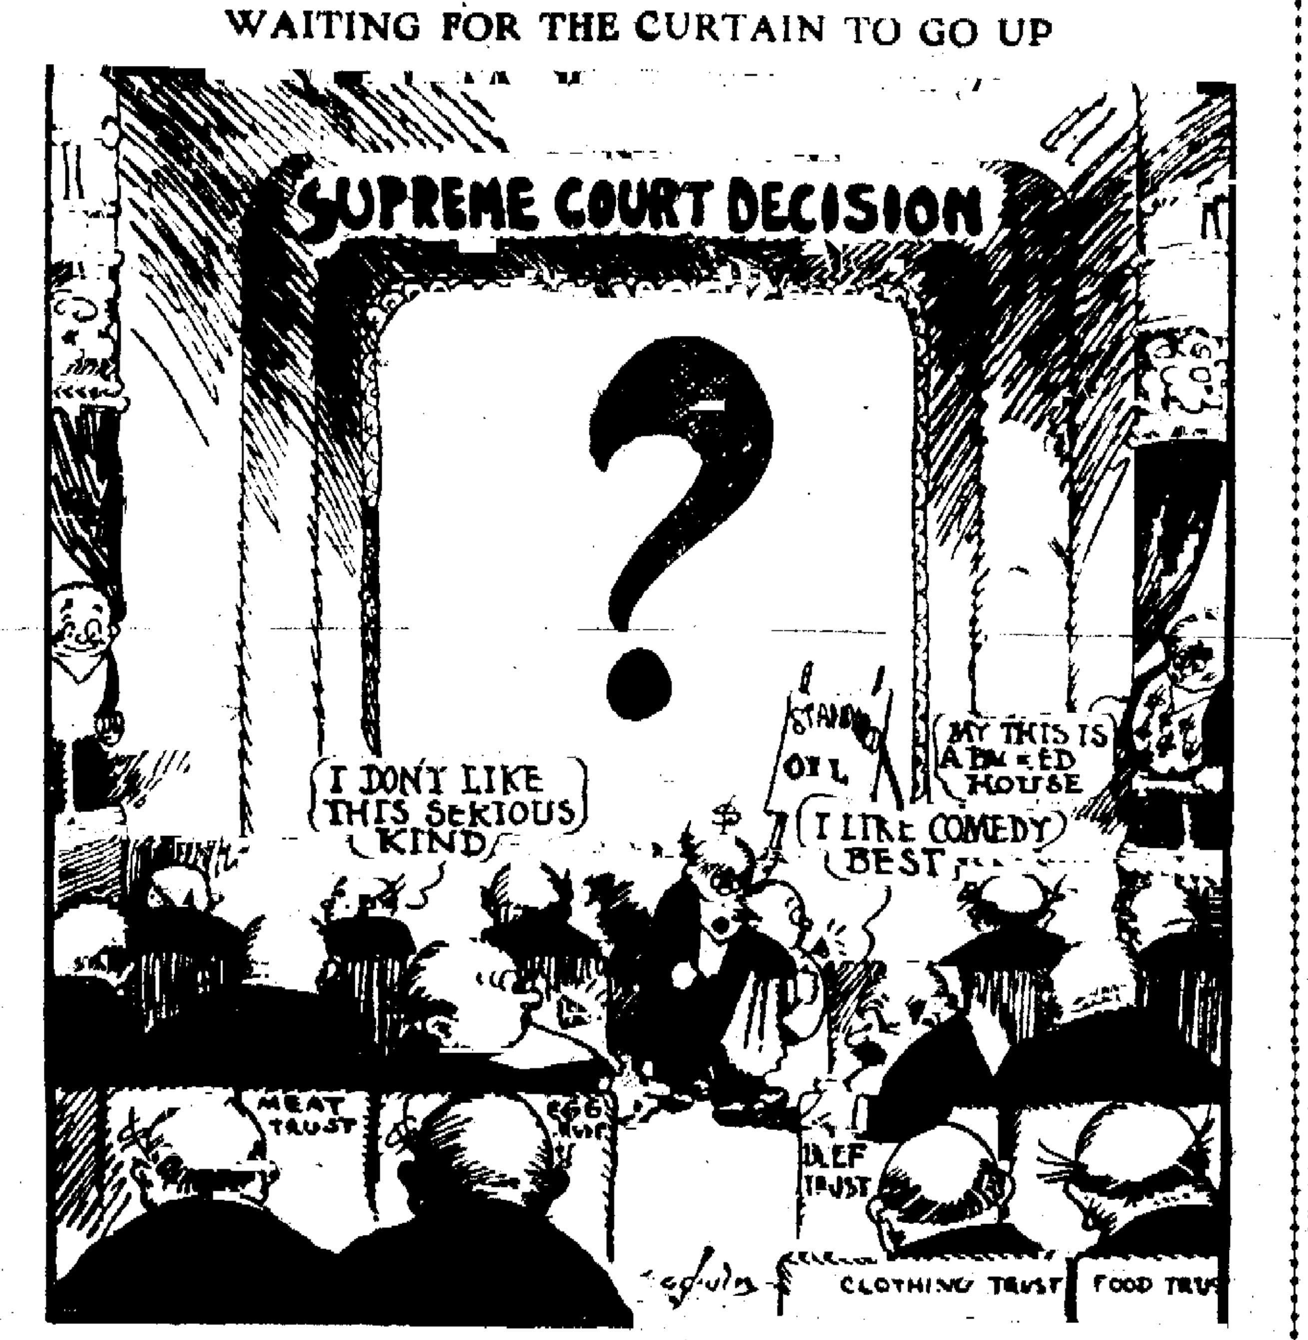

Tonight conditions in Colorado's fruit districts showed great improvement, the following temperatures being reported: Denver, 34; Pueblo, 34; Grand Junction, 38; Durango, 24; Montrose, 32; Olathe, 34; Delta, 42; Paonia, 38; Hotchkiss, 40; Santa Fe, N. M., 32; Salt Lake, 32.

Greeley reports a wind and snow storm which began at 9 o'clock yesterday morning and continued all night. Many roofs were damaged by the wind, but farmers report great benefit from the moisture. Similar conditions prevailed at Eaton, Evans, Windsor, Ault, Platteville, Fort Lupton and Loveland.

From Gunnison comes the report that a snow storm is raging around

(Continued on Page Six.)

WAITING FOR THE CURTAIN TO GO UP

MOTHER GOOSE FETE IS A GREAT SUCCESS

FAMILIAR CHARACTERS ARE WELL PORTRAYED.

Proceeds Go Toward Restoration of "Balcony House" in Mesa Verde Park

The "Mother Goose Village" fete held yesterday afternoon and evening in Temple theater was one of the most complete and artistic affairs of its kind ever witnessed in Colorado Springs. The scene presented was thoroughly realistic, for the familiar characters from the melodies inseparable from childhood days were faithfully depicted by both children and grown people.

Lining both sides of the theater were handsomely decorated booths, each having some special reference to Mother Goose. There was the pie booth, where presided "The Queen of hearts who made the tarts," the coffee booth with the legend "She loved coffee, and I loved tea;" the flower booth, presided over by "Mary, Mary, quite contrary," and her assistants, and the ice cream booth with the lines, "Some children sliding on the ice, all on a summer's day."

The tea and lemonade booth was presided over by ladies in Japanese costumes and the tea garden effect was prettily carried out with trellises of roses and electric lights. The Anne Hathaway Shakespeare club had charge of the candy booth, where a variety of sweets found ready purchasers. "Baa, baa, black sheep," indicated the fancy work booth, and the doll booth had a large shoe in which was Katherine Brooks, "The Old Woman in the Shoe," with her numerous family about her. "Peter, Peter, Pumpkin Eater," was represented by an artificial pumpkin from which mysterious gifts were drawn.

Besides, there was a fortune telling booth presided over by a bevy of young women versed in the mystic art, and a grotto wherein rare relics of the cliff dwellers were displayed, as well as numberless other interesting exhibits.

In the afternoon the [illegible] trio of Prof. Edwin Dietrich and Miss Trott furnished excellent selections, and Mrs. H. H. Seldomridge sang doll songs. In the evening Fink's orchestra gave concert numbers, and later the music for dancing, which concluded the festivities. The fete was an unqualified success, and Mrs. Gilbert McClurg, president of the Cliff Dwellings association, under whose auspices the fete was given, and all who so diligently worked for it, are to be congratulated. The proceeds will be used toward the restoration of "Balcony house" in Mesa Verde park and the establishment of a museum therein.

CHARGES OF CORRUPT PRACTICES TO BE PROBED

House Orders Inquiry Into Acts of Members in the Ship Subsidy Matter.

LOBBY ALSO UNDER FIRE

Opposition to the Conservation Bills Shown in Senate Debate on Land Withdrawal.

WASHINGTON, March 29.—Charges of corrupt practices of members of the House for advancement of foreign or other shipping interests in connection with ship subsidy legislation will be investigated by a special committee of the House.

A resolution providing for such an investigation was passed by the House today.

The House also passed a resolution today to investigate the shipping lobby.

Charges of corrupt practices [illegible] made by the organ of the Merchant Marine league of Cleveland, O., against Steenerson of Minnesota and others.

Mr. Kustermann of Wisconsin, "as one of the accused," hoped to see the fullest investigation. His speech declaring his innocence was applauded.

WASHINGTON, March 29.—The speech in the Senate today of Senator Chamberlain of Oregon, in support of the land withdrawal bill, the first of the president's conservation measures, served to elicit from other senators remarks to justify predictions that the conservation bills would be vigorously [illegible].

The debate [illegible] by Mr. Chamberlain showed that [illegible] Dixon and [illegible] supporting the bill, and [illegible] and Hughes opposing it.

Chamberlain gave Roosevelt's course hearty indorsement, [illegible] his withdrawal of lands [illegible] of Congress, saying he thought the President had prevented the taking up of much valuable land contrary to law.

TWO JAPANESE SPIES TRAPPED BY SOLDIER

TRIED TO SECURE PLANS OF FORTIFICATIONS.

American Officers Outwit and Capture Them by Remaining Concealed for 30 Hours.

MANILA, March 29.—Joseph Saxe, the soldier whom two Japanese recently approached for the purpose of securing photographs and plans of the American fortifications in the Philippines, and who assisted in trapping them, has been in the army for 11 years. He enlisted first in the Second Louisiana infantry. He then served three years each in the Fourth and Thirteenth cavalry, when he was transferred to the engineering corps. Saxe was born in Chicago and his parents live in Waterbury, Conn. He is 33 years old. He had been detailed on the photographic work and consequently was in a position to furnish the desired photographs.

Saxe is now confined to the limits of Fort Santiago, but will be sent home on the next transport.

The identity of the Japanese is uncertain. They are known generally as Suganami and Kawada. It is asserted that the former is the son of a colonel in the Japanese army. This, however, can not be verified. Both men are linguists and they have been in the islands for about a year.

It is believed that there was a third Japanese, who, however, failed to enter the house where the others were captured on Sunday. It is thought he was to bring the bribe money. The Japanese watched the house all day Sunday before entering it, but the American officers outwitted them by taking up a position in the house on Saturday and remaining concealed for 30 hours.

The prisoners are being held in the custody of Colonel Irons. The Japanese consul has taken no action.

BREWER TO BE BURIED AT LEAVENWORTH, KANS.

Members of Supreme Court Will Act as Pallbearers at Funeral of Late Associate.

WASHINGTON, March 29.—The body of the late Justice Brewer of the supreme court of the United States will be taken back to his old home in Leavenworth, Kans., [illegible]. There will be a short funeral service at the Brewer residence here on Thursday afternoon. The members of the supreme court will act as pallbearers. At 3:40 p. m. the funeral party, including probably the entire court, will start on its journey to Kansas. The funeral train will arrive at Leavenworth Saturday morning.

President Taft, upon his arrival here today from New York, was much distressed by the news of the death of his friend, Mr. Justice Brewer. He had learned the bare fact last night before his departure from Jersey City and eagerly read the detailed accounts of the death of the noted jurist as soon as the newspapers reached him in his car at the Union station this morning.

Mourned by Many Here.

The news of the demise of David Josiah Brewer, associate justice of the supreme court of the United States, was received with deep sorrow in Colorado Springs and other places in the Pikes Peak region, where many close and dear friends of the eminent jurist live. Chief among his friends in this section was Attorney O. F. Ingraham of Colorado City, father-in-law of Judge L. W. Cunningham, who was associated with Mr. Brewer in law practice at Leavenworth, Kans., when that state was young. J. L. Pendry, another attorney, who died several years ago at his home in this city, was at one time associated in law practice with the late justice, and at the time of the former's death, Justice Brewer came here to attend the funeral.

Several times Justice Brewer came to Colorado on pleasure trips and each time he spent some time visiting with his friends here. He was very enthusiastic about Cripple Creek, as an ore producing camp.

When the famous suit between Colorado and Kansas came up some years ago regarding the question of using water of flowing streams for the purpose of irrigation, it was Justice Brewer who wrote the final decision, that has always been considered a great victory for this state.

Brief reference to Justice Brewer's death was made from the bench by Judge W. S. Morris in the district court at the opening session yesterday morning, the local judge speaking feelingly of the loss sustained not alone by the bar but by the entire country through his end.

EGYPTIAN STUDENTS HOOT AT ROOSEVELT

DEMONSTRATION OUTSIDE HIS HOTEL IN CAIRO.

Guests Flee, Fearing Violence, but He Is Unmoved—Nationalists Resent His Speech.

CAIRO, Egypt, March 29.—Former President Roosevelt's address before the Egyptian university has aroused the extreme Nationalists to a state of fury. Seven hundred students this evening marched to his hotel and demonstrated against him, shouting "Down with autocracy, give us a constitution."

The demonstrators were applauded by the many spectators and some of the guests left the hotel, fearing violence. Colonel Roosevelt was not in the hotel at the time, but drove up shortly afterward. He said he had heard the noise, which reminded him of American college boys, but he had no idea that he was the cause of it.

Another protest meeting was held this evening, at which speeches less violent than at the first meeting were made. Great efforts were made to induce Colonel Roosevelt to attend, but he smilingly declined.

CAIRO, Egypt, March 29.—This was a quiet day, comparatively, for the Roosevelts following the strenuous program of yesterday, which was concluded with the appearance of the family in the Khedival box at the opera house where, at the close of the amateur performance of the yeomen of the guard, Colonel Roosevelt received an ovation.

Today Colonel Roosevelt was the guest at luncheon of the German minister, Baron Hermann Von Hatzfeldt-Wildenburg, who was formerly first secretary of the German embassy at Washington and temporarily in charge of German affairs there, following the death of Ambassador Von Sternburg.

LONDON, March 29.—Former President Roosevelt's address before the students of the University of Egypt, has attracted considerable comment here, where there is a difference of opinion as to the good or evil effects of his plain talking in denouncing the assassination of the late Premier Boutrios Pasha Ghali. Roosevelt did not mince words with a view to avoiding offense to the Nationalists, a great many of whom have openly sympathized with the assassin. The radical press today takes exception to Colonel Roosevelt's remarks. On the other hand the Tory press is laudatory of the fearless declarations.

NEW YORK, March 29.—Colonel Theodore Roosevelt has presented a bullet with which he killed a bull elephant to the actors' fund fair, which will be held in New York on May 9 to 14. He sent it in response to a request from Charles Burnham, general manager of the fair, with the following letter, dated "On Safari, February 5."

"I haven't any trophies; the skins are for the National museum, but I inclose a bullet I used in killing a bull elephant. It may be of no use to you; if so, throw it away."

$300,000 FIRE AT HOLDREGE

HOLDREGE, Neb., March 29.—Fire today destroyed the elevator of the Central Granaries company, the Burlington coal chutes and five [illegible].

USE AS MUCH WATER AS ON HOTTEST DAYS

City Officials Prepared to Regulate Supply Unless Present Waste Is Cut Down.

After a severe winter, summer weather is most pleasing to Colorado Springs residents, but it is subjecting the city's water supply to a hard strain. On March 22 and 23 the daily consumption of water was 7,900,000 gallons—only 200,000 gallons less than the quantity of water used in the city on a hot July day.

According to Water Superintendent McReynolds, the daily average consumption for this month will be approximately 6,500,000 gallons. On last Tuesday 7,700,000 gallons were used. Owing to the snowfall and slightly colder weather the amount used yesterday was much smaller. Superintendent McReynolds believes that water users are wasting the supply, and unless it is used more economically in the future, regular water hours will be announced and water users will be compelled to observe them. It is the custom of many residents of the city to keep water running on their lawns throughout the day, thus wasting many hundred gallons.

Superintendent McReynolds says that there is no danger of a shortage in the water supply this summer if the people will be reasonable. The mountain streams which furnish a great quantity of water for the city are beginning to flow more freely. The snowfall Monday night amounted to 10 inches at Lake Moraine and four inches at the Half Way [illegible].

COLLEGE AND UTAH TO DEBATE TONIGHT

Will Discuss Advisability of Guaranteeing Bank Deposits—First of the Year.

The first interscholastic debate of the year in which Colorado College will be represented will be held tonight in Perkins hall with the University of Utah. The question for debate is: "Resolved, That bank deposits should be guaranteed." Colorado College, represented by E. B. Hunt, H. W. Coil and T. M. Pettigrew, will take the affirmative. The University of Utah will be represented by J. T. Wooten, D. M. Draper and L. T. Perry.

Although only participating in two intercollegiate contests this year, another one with Denver university, to be held in Denver the latter part of the month, the Colorado College team is considered one of the strongest in the Rocky Mountain region. Coil and Hunt were members of the Apollonian team that recently defeated the Pearson society team in the annual debate. This is the second debate between the two colleges, Utah winning last year. The Utah team has been doing some excellent work and a hard-fought contest is expected this evening. The Utah team will arrive this noon.

The question to be debated tonight has been argued in state legislatures for some time. Governor Shafroth has been quoted as stating that a bank guarantee law will be brought before the next state legislature. The law was one of the first to be passed in the new state of Oklahoma.

REFUSE TO ACCEPT

Dr. Franklin Will Continue at Head of Colorado Baptists—Assembly Date Set.

At a meeting of the executive committee in Denver, Monday, plans were completed for the holding of the annual Cascade canon assembly under the auspices of the Colorado Baptists, at Cascade in Ute pass, July 22 to August 1. It is expected that at least 1,000 delegates will attend the gathering this year. The Rev. G. Clifford Cress of Colorado City was appointed chairman of the local committee on arrangements.

Dr. J. H. Franklin, pastor of the First Baptist church, this city, who expects to sail early next month for Africa, where he will remain for several months, offered his resignation in person as president of the state organization, but the committee refused to consider it, appointing Frank Perry of Denver to act in Dr. Franklin's stead while he is away.

CLEAR UP DEBRIS

Practically All Damage Done by Windstorm Has Been Repaired.

Large forces of men were put to work early yesterday morning repairing the havoc wrought to telephone, telegraph, and electric light wires by the heavy wind of Monday night, and as a result practically all were in good working order before noon. While considerable damage was done by the wind, it was much less than at first supposed.

According to the records of the Colorado College weather bureau, the heaviest precipitation of the year fell between 6 p. m. Monday and 4 p. m. yesterday, the register showing it to be .13 of an inch. The temperature during the storm was most deceiving, for most of those outside, while the wind was blowing, thought that it must be nearly zero weather. The weather report shows that the minimum temperature was only 28 degrees.

PROF. HALLOWELL FOUND DEAD IN THE BRUSH

GUNNISON, March 29.—The body of Professor H. K. Hallowell was found this afternoon by a party of searchers in the brush near the river, two miles north of Gunnison. He had died in a sitting posture. He was 78 years of age, and came from New York state 30 years ago. He [illegible] last as a geologist.

ALLDS IS CONDEMNED

New York Senator [illegible] Guilty of Taking Bribe by His Colleagues, by Vote of 40 to 9.

ALBANY, N. Y., March 29.—Jotham P. Allds went to his home in Norwich tonight, a private citizen, branded as a bribetaker by his former colleagues in the Senate and by [illegible]. Senator Conger, who filed charges against Allds, stayed [illegible] to fight.

[illegible] day when it voted, 40 to 9, [illegible] had been [illegible] by the evidence.

[illegible]

ELOPING COUPLE CAUGHT AFTER LIVELY CHASE

Fled 15 Miles Through Chapparal and Sage Brush After Their Automobile Broke Down.

SAN DIEGO, Cal., March 29.—After a night elopement in an automobile, the second within a week, and a flight of 15 miles through chapparal and sage brush, 17-year-old John Foreman and 15-year-old Gertrude Seifert, of San Diego, were found in a canon six miles from Des Canso early tonight and forced to surrender at pistol point. The capture was made only when deputy sheriffs stalked the camp of the elopers, guided by the light of their camp fire.

Foreman, who was heavily armed, had withstood a previous attempt at capture with drawn revolvers, taking Deputy Sheriff Charles Ellis captive and later releasing him.

The couple eloped from San Diego Monday night in a hired automobile, the girl escaping from her room in the second story of her father's house by knotting the sheets of her bed into a rope.

The fugitives were in a pitiable plight as a result of their rough trip after their automobile broke down. Foreman's face was badly scratched by the bushes and his clothing was in tatters. The girl had not fared quite so badly. Young Foreman declared he would yet marry Miss Seifert, but that they had decided to go back to their homes and wait two years.

ORDERS LAW ENFORCED

Mayor Gaynor Announces Intention to Make New York City "Dry" on Sundays.

NEW YORK, March 29.—Mayor Gaynor tonight gave out his plan for making New York "dry" on Sundays. In a letter to the commissioner of police he called attention to a notice to liquor dealers to discontinue paying collection money. He says the state excise law is enforced in other cities, and says "it is now time we enforce the law as well."

[illegible] was instructed to report violations of the [illegible] law. Excise officers, he [illegible], should obtain other evidence and report it to the district attorney.

The "[illegible] of extortion," the mayor [illegible] be eradicated.

ALEXANDER AGASSIZ DIES ON AN OCEAN VOYAGE

CAMBRIDGE, Mass., March 29.—Alexander Agassiz, naturalist and president of the Calumet and Hecla Mining company, died [illegible] on the steamer [illegible] New York. The body was [illegible].

WANTS LIGHT THROWN ON MEXICAN SERFDOM

Resolution Introduced in House Relative to Imprisonment of Villareal and Compatriots.

WASHINGTON, March 29.—Moved to action, as he admits, by published charges of the existence of slavery in Mexico, and the belief that this government may be allowing itself to be used by the Mexican government for the punishment of political offenders, Representative Nichols, Democrat, of Pennsylvania, today introduced in the House a resolution requesting the attorney general to furnish full information relative to three prominent Mexicans now in the federal penitentiary in Arizona under sentence for violation of the neutrality laws.

The resolution was referred to the judiciary committee.

The resolution asked for full information in connection with the arrest, indictment, conviction and imprisonment of Antonio Villareal, R. F. Magon and Liberado Rivera, and also [illegible] these men will be granted their freedom when their present terms [illegible].

"I have understood," said Mr. Nichols, "that it is the purpose of those who prosecuted these men that they are to be harassed further at the behest of the Mexican government when their terms expire.

"I am convinced that a practical condition of serfdom exists in Mexico and whenever men of that country have protested in Mexico against [illegible] conditions they have been [illegible], harassed and imprisoned. In [illegible] where fugitives have fled into the United States, I believe this government has been beguiled into [illegible] aid for their punishment. I [illegible] to find out about it."

LAUNCH "DRY" CAMPAIGN

[illegible]

DENVER, March 29.—[illegible]

NEWSPAPERARCHIVE®

[illegible] HOSIERY

for the entire family. We have them in all sizes, 6 pairs, 6 months.

EDITED BY BRUCE A. GUSTIN

FEARING RACE WAR PROMOTERS WILL PROHIBIT SALE OF LIQUOR AT FIGHT

CHICAGO, March 29.—The arena at Emeryville, Cal., where the Jeffries-Johnson fight is scheduled to take place July 4, will be "dry" on that day, according to James Gleason, one of the promoters, who is in Chicago.

"Even if I were offered $8,000 in cash for the bar privilege for the arena, I would not consider the proposition," said Gleason. "I am afraid that if intoxicants were sold at the ringside a race riot might be started by the followers of Jeffries and Johnson. The fans will have to go thirsty during the battle, for there will be no drinks served.

Final arrangements for handling tickets for the fight in Chicago and surrounding territory were completed yesterday by Gleason, who closed negotiations with the railroad officials. He says he was assured of a $72.50 round trip rate and the purchaser will be able to secure tickets for the fight while purchasing the transportation.

Gleason will leave tomorrow for New York.

AMERICANS ENGAGED TO AID REVOLUTION

With [illegible] Expedition [illegible] to Sail [illegible] New Orleans to Bluefields.

NEW ORLEANS, March 29.—A stubborn legal fight is promised by the ad[illegible] ents of the Madriz case against the [illegible] of a proposed filibustering [illegible] dition from this port in support of the insurrectionary movement in Nicaragua.

That an extensive filibustering expedition from New Orleans will be sent to Bluefields seems certain unless there should be some influence on the part of the United States. Authentic reports say that hundreds of Americans have been engaged to carry on the warfare against Madriz. An abundance of arms has without doubt been secured. An unusual feature of this equipment, according to well defined reports, is that it includes many repeating shotguns and a liberal supply of buckshot.

Barbarities are being perpetrated in Granada under the direction of the Madriz government according to Carlos Chamorro, a brother of the leading insurgent general, Emilio Chamorro, who arrived here yesterday. Chamorro declares that a wealthy plantation owner named Caronel was recently dragged from his home, whipped to the point of laceration and finally killed because he refused to contribute money for the support of the Madriz faction. Both male and female relatives of insurgent leaders, innocent of any actual attacks on titular government, have been imprisoned, Chamorro asserts.

INDIAN RACE REVIVING

More Births Than Deaths Reported in Statistics Compiled at Washington.

WASHINGTON, March 29.—The Indian has at least paused in his passing from the face of the earth, if statistics concerning births and deaths among about one-third of the Indian population in the United States, which have been compiled by the bureau of Indian affairs, can be accepted as representing general conditions of the race. In 1909 there were 3,395 births and 3.178 deaths among 101,717 Indians. This shows a birth rate per thousand of 33.4 as compared with 31.2 deaths. It was estimated that there were 300,545 Indians in the United States exclusive of Alaska.

400 DIE IN TEN MINUTES

Horror of Hungarian Holocaust Intensified by Later Reports—Hundreds of Children Orphaned.

VIENNA, March 29.—The emperor has telegraphed to the Hungarian government his condolences in the catastrophe at Oekoerito by which 400 lives were lost. It is learned that the ball at the hotel was held for the purpose of raising funds to complete the building of the Protestant church.

From the first alarm of fire to the collapse of the roof, which completed the disaster, only about ten minutes elapsed. The victims included Burgomaster Kavaca, his wife, daughter and four sons.

Most of the bodies taken from the ruins are unrecognizable. Hundreds of small children were left orphans.

OIL PLANT BURNED

KNOXVILLE, Tenn., March 29.—The entire plant of the Standard Oil company with the exception of one eighty-thousand gallon oil tank was destroyed by fire tonight. The fire was of incendiary origin, it is believed. The flames consumed a number of little cottages near by. The Standard's loss is $150,000.

PUTTING C. C. MACHINE TOGETHER IS TOUGH

Coach Newhouse's Rep as Coach Is at Stake.

Albert Sherry's Colorado College Tigers will buck the Manual High school nine from Denver at Washburn field Saturday afternoon, in the last practice game before the opening of the int collegiate season with Boulder here, April 9. The Tigers beat Manual, 7 to 4, in Denver, but the interscholastics did not have Paulicheck, their phenomenal pitcher, in the game. "Polly" is booked to work Saturday, and the Tigers will have hard work to win.

When Frank Newhouse took the Tiger baseball machine apart last spring, and carefully laid away the pieces, he little thought that putting the parts together this spring would be such a task. When he began owrk a few weeks ago, he found some of the parts missing. Hyder, the sterling first sacker; Heine Schmidt, the hard-hitting third baseman; Jones, the agile second baseman, and Tub Morris, the veteran outfielder, were absent. Pitcher Van Stone and Catcher Bert Siddons, the mainspring of the machine, however, were in good working order. Captain Sherry was very fit for the shortstop place, and Jimmie Wilson and his bat were left in the outfield with Seldomridge.

Coach Newhouse was not worrying about the old pieces in the machine, but the work of getting the new pieces into working order and fitting them in seems to be a puzzler. Frank's rep as a baseball coach is at stake, and to say that he is spending some sleepless nights is putting it lightly.

Newhouse lined the Tigers up a few weeks ago, and they were badly whipped by the D. A. C. Then the team went to Denver for a week and received several additional drubbings. This week is seeing several changes. Boyes, who was playing second, is out, with Friend, formerly at first, in his place. Siston has been put on first. Bancroft is still working at third.

BURNS LOSES FIGHT IN LAST ROUND

SAN FRANCISCO, March 29.—After battling 19 vicious and bloody rounds, and apparently enjoying a slight lead over his opponent, Jack Burns of Salinas, Cal., lost the fight in the twentieth and final round of his battle with Jim Barry of Chicago, at Dreamland rink tonight. Burns took the count four times in this round, and was saved from a knockout by the bell.

MIND IS STILL BLANK

Return Home Has Not Improved Condition of Joy Miller, Michigan Football Star.

DETROIT, Mich., March 29.—Joy Miller, the Michigan university football star, who disappeared last January, is home again, but home has not restored his memory of the past. He recollects nothing prior to the time he met in Chicago a party of young men bound for Manitoba to take up land. He cast his lot with them, but, instead of trying to locate land, he wandered from one city to another in the northwest.

Not until yesterday, however, did he realize that his parent was more than someone he had met somewhere. He failed to recognize his sister. His ability to read has partially left him.

Mr. Miller would not permit anyone to interview his son. He plans to restore his memory by keeping the boy in company with relatives and friends whom he knew well. Specialists will be brought into consultation.

START ON LONG TRIP

A. A. U. Officials Touring Middle West in Intrest of School and Playground Athletics.

NEW YORK, March 29.—James E. Sullivan, secretary of the Amateur Athletic union, has started on a tour through the middle west in the interests of athletics generally. From Chicago, he will be accompanied by Everett C. Brown, president of the A. A. U.

Their mission in particular will be the advancement of school and playground athletics. It is probable that a rearrangement of territory may result from their observations.

President Brown and Secretary Sullivan, after going over athletic matters in Chicago, will move on to Kansas City for a convention, which has been called there to put athletics on a sound basis. Their next stop will be Omaha, where they will attend an athletic meet on April 1.

JEFF NOT INJURED

MOJAVE, Cal., March 29.—Rumors that J. J. Jeffries had been injured in an accident while hunting were dispelled today when John Hays, an auto stage driver, came in from the desert and reported that the big pugilist was enjoying himself at Little Lake.

"Nothing the matter with him," said Hays. "Jeffries was at Indian Wells last night and said he was feeling fine. He tramped all the way to Little Lake early this morning."

LONDONER FLEES

At Last Minute Tommy Dawson Runs From Theater to Avoid Bout With Sullivan.

OGDEN, Utah, March 29.—Showing the white feather five minutes before he was to enter the ring for a 20-round boxing contest with Pete Sullivan of Fall River, Mass., Tommy Dawson of London, England, who came here from Indianapolis, fled from the theater with his manager and the promoters in pursuit. Overtaken by the promoters Dawson declared the gate receipts too small. When offered a guarantee he turned and fled again.

Sullivan was in his corner. Money was returned to 600 disgusted spectators.

ORAL BETTING IS LEGAL

SAN FRANCISCO, March 29.—That oral betting is not prohibited in this state by the antibetting laws [illegible] by the last legislature was the decision of the supreme court today in granting the [illegible] corpus writ for W. W. [illegible], a stakeholder, accused of violating the Walker-Otis law. A majority of the court held that two irreconcilable clauses in the law made it inoperative against oral bets, while a concurring opinion was [illegible] on the decision of the New York courts upholding oral betting in that state.

KLAUS SHOWS UP WELL

BOSTON, March [illegible].—Frank Klaus of Pittsburg knocked out Frank Mantell of Pawtucket in the ninth round of their bout at the Armory tonight. Mantell had the fight won on points up to the middle of the sixth, when an uppercut to the jaw put him down for the count. In the ninth round another uppercut to the jaw put Mantell out.

WASHBURN COACHING SILVER AND GOLD NINE

BOULDER, March 29.—With Walt Wasson, the former 'varsity captain and Denver Western league twirler assisting Coach Castleman in coaching the baseball team, the squad started yesterday on the final practice before the regular schedule, which opens in two weeks. Because of the weakness of the pitching staff, Wasson's services have been secured to try and bolster up this point sufficiently to enable the team to make a creditable showing against the other colleges.

Wasson will devote his entire time for the rest of the year, when not busy with his school work, to training the half-dozen candidates for pitcher to gain control and speed. He has a good bunch of men with which to work.

Polley, Brock, Swartslander and Nelson are the most promising of the candidates, and it will be a close thing to pick the man after they have worked in the various practice contests.

Chick Fanner, the former Prep catcher, who has been laid up for the last week with a bruised hand was again in uniform, and will make a hard fight for the receiving job against Bond, the only oldtimer who is trying for the place.

The men who have been absent on the engineers' trip returned Sunday, and all were in suits today. Captain Matthews at second, Neil at first, Cowell at short, and Fawcett at third, have all been away, but the manner in which they worked today was such a decided improvement over the playing by the second squad that the hopes of the students took a jump.

Practice morning and evening will be the order of the week, and the strenuous course mapped out by the coach is one which will allow for none but the speediest players and hardest workers.

PACIFIC COAST LEAGUE TO OPEN SEASON TODAY

SAN FRANCISCO, March 29.—The 1910 season of the Pacific Coast league will open tomorrow, the San Francisco and Portland clubs meeting in this city, Vernon and Los Angeles at Los Angeles, and Oakland and Sacramento at Sacramento. Weather conditions are promising, and a record attendance at all games is expected. Interest in baseball has increased remarkably on the coast in the last few years, and the league officials predict that the 1910 season will be one of the best from all standpoints that the coast has ever known.

ATHLETIC DIRECTOR MAKES GOOD IN KENTUCKY

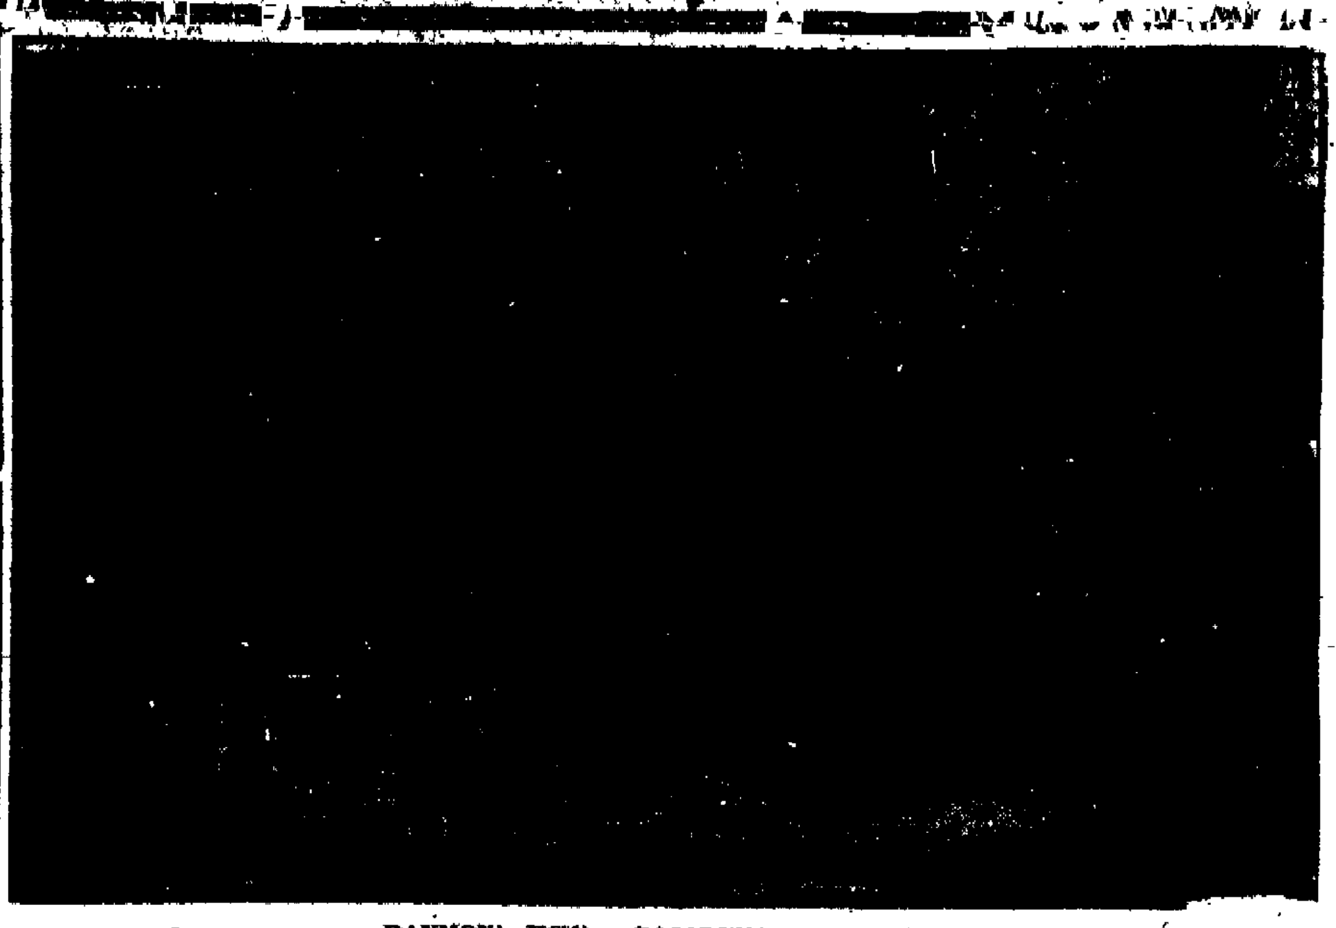

E. R. SWETLAND.

LEXINGTON, Ky., March 29.—E. R. Swetland, former football star, has made good as director of athletics at Kentucky State university. He has just been re-elected for three years. Before coming to Kentucky he was football coach at Swarthmore.

Swetland has some very gratifying statistics to furnish those who are not so radically opposed to football as a college sport. He has compiled figures which show that football is not two-thirds as fatal as certain statisticians on the other side of the fence would have one believe.

PLAN ELEVEN KINDS OF STEEPLECHASES

NEW YORK, March 29.—At the coming meeting of the Maryland Jockey club at Pimlico, there are no fewer than 11 different kinds of steeplechases to be offered—that is, of the conditions are changed in 11 ways, making it possible to suit the requirements of any sort of a jumper. One of the most interesting steeplechases that is offered is the owner's handicap. In this race, the owners are requested to do the handicapping. From the weights so assigned an average is struck, and the result has always been a first-class contest.

RAYMOND HOTEL, PASADENA, CALIFORNIA.

Nothing Will Be Left Unseen Which Is Worth Seeing on Great Tour

This tour to California that the fourteen lady winners will be given is not for the time being. Every lady who takes the trip as The Gazette-Herald's guest will talk of her trip for years to come, and the management is going to be proud of the fact that it was the source from which the opportunity for the travelers arose.

The Vote Up To 10 p. m. Saturday

When The Gazette-Herald says it is going to give a Free Tour to California, which will be the finest of its kind ever offered, it means just that, and The Gazette-Herald's way of doing things is a pleasing contrast with anything you have ever derived enjoyment from.

SPORTING NOTES

NEW YORK, March 29.—The 60 days' suspension of Melvin W. Shephard for his participation in an athletic squabble in Philadelphia in December expired yesterday, and the middle-distance champion celebrated his return to athletic competition by scoring a victory in the half-mile event at the annual spring games of the Fourteenth regiment of Brooklyn. He traveled over the 880-yard distance in 1.58 2-5, and won the race in easy fashion from R. J. Egan, who crossed the line about 15 yards behind him.

Coach Frank Newhouse of the Colorado College Tigers will umpire the games in Denver between the Chicago White Sox and the Grizzlies. He probably will be asked to handle the indicator in the game here next Tuesday, between the Zoos and White Sox.

MEMPHIS, Tenn., March 29.—Claiming that he has injured his hand, Stanley Ketchel has canceled his contract to meet Jimmy Howard the southern champion, here April 6.

SYDNEY, N. S. W., March 29.—Another date has been set for the fight between Tommy Burns, the Canadian pugilist, and Bill Lang, heavyweight champion of Australia, for the Australian title. The date announced today is April 11. The fight originally was scheduled for March 26, and subsequently postponed to April 20.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

POLE DEFEATS TURK.

CHICAGO, March 29.—Zbyszko won the privilege of meeting Frank Gotch for the wrestling championship of the world by defeating Yussiff Mahmout, the Turk, in two straight falls at the Coliseum here tonight. The first fall was a crotch hold and half Nelson in 1:04:51 and the second was an arm and half Nelson in 25:43. The Turk was the aggressor throughout, his opponent playing a waiting game, merely jumping in when he saw a good chance. The Pole was not on top more than a dozen times.

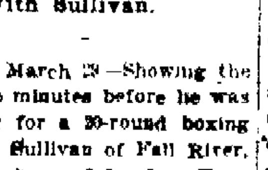

INDIGESTION IS CURED BUT PATIENT IS DEAD

SEATTLE, Wash., March 29.—A post-mortem examination held today on the body of Earl Erdman, 28 years old, who died last night after long abstention from food to cure indigestion, showed that he had died of starvation. Erdman, a railroad civil engineer, has been treated three weeks for indigestion by a woman physician, whose treatment involves eating no food. Other patients of the woman doctor have died of starvation, it is said, but the coroner says there is no law under which she can be prosecuted.

WILL BRING VICTIMS TO AMERICA FOR BURIAL

WASHINGTON, March 29.—The government has ordered the bodies of the victims of the gun explosion on the cruiser Charleston brought back to America from Manila and interred at places selected by their relatives.

PROSPECTS ARE BRIGHT FOR GOOD FRUIT CROPS

Reports of County Horticultural Inspectors to State Board Are Satisfactory.

DENVER, March 29.—Colorado is promised its usual abundant fruit crop for 1910, according to facts compiled by Mrs. Martha A. Shute, assistant secretary of the state board of horticulture, from reports of county horticultural inspectors received at state board headquarters today. A. S. Taylor of Fremont county reports: "Prospects for a banner crop of all kinds of fruits except peaches are fine. Orchards, with very few exceptions, are in splendid condition."

J. F. Myer of Garfield county says, "standard fruits of all kinds are in good condition except peaches in some localities on young trees."

"At this date, Mesa county apple orchards are, upon the whole, well set with fruit buds which are still in a promising condition," writes E. P. Taylor of Mesa county. "Prospects for a pear crop are almost perfect. In fact apples and pears seem to have passed the winter without the slightest damage from cold. Peaches promise at least a 75 per cent crop."

C. H. Taylor of Montezuma county says: "All fruits in this county are in fine condition."

From Otero county Charles S. Lane reports: "Tree fruits are looking good except peaches. Small fruits are not hurt at present."

W. S. Coburn of Delta county reports: "Fruit buds in fine shape."

Equally encouraging reports come Denver and Boulder counties.

PALISADES, Colo., March 29.—While nearly every other section of Colorado is suffering from snow or blizzards, Palisades has only a cloudy sky to report with slightly lower temperature. It was desidedly cool here Sunday and Monday, but each night it grew warmer, and the same condition is predicted for tonight. While there is some wind, it is not at all heavy.

EDUCATOR SHOES

for children. Just the shoe for growing feet. We have a full line.

WIFE OF FOUNDER OF TOWN OF HARTSEL DIES

Mrs. Samuel Hartsel, well known in this region, and wife of one of the old-time prominent cattle men of the South Park country, died yesterday morning at her home in Denver. She is survived by her husband and three daughters. Funeral arrangements have not been completed. The Hartsel family lived in South park for many years, and the town of Hartsel was founded by them. Their holdings were sold for $100,000 four years ago.

ADOPTS TARIFF AGREEMENT

PARIS, March 29.—The bill approving the Franco-American tariff agreement was adopted unanimously today by the chamber of deputies.

IVORY SOAP—it keeps the country clean.

There is no exaggeration about this statement. It is a fact.

Nearly every grocer sells Ivory Soap. Nearly every well-to-do American family uses it; for the bath, for the toilet or in the laundry—for the finer things.

Ivory Soap

99 44/100 Per Cent. Pure

MINERS WILL STRIKE

(Continued From Page One.)
(Continued From Page One.)

ing industry of the country. There may be temporary suspension in some districts until we are able to reach the operators and explain the outcome.

"The larger part of the tonnage represented by the operators will be signed up within a week. The situation in Illinois and western Pennsylvania may be somewhat complicated for a couple of weeks or a little longer, but I am satisfied that everything will be straightened out without any further serious trouble.

"Stock gamblers in coal will be the most disappointed of all the men who tried to bring about a strike affecting the entire country. I hope they will pay the penalty of their own folly."

Miners Ready to Go Out.

DENVER, March 29.—Letters received today from representatives of the United Mine Workers of America at the scale convention in Cincinnati indicate that the wage struggle in prospect because of the failure of the convention to reach a settlement will reach Colorado.

Today William Crawford, secretary of the Northern Colorado Miners organization, said that he fully expects a strike.

C. L. Baum, one of the largest operators of the Northern Colorado fields, declared that the operators will close the mines before they will grant an advance of 15 per cent in wages or the Saturday half holiday.

KANSAS CITY, Mo., March 29.—No agreement is in sight between the southwestern mine operators association, including Missouri, Kansas, Arkansas and Oklahoma, and the coal miners organization and a general strike is expected April 1.

DES MOINES, Ia., March 29.—Iowa mines will suspend operations at 4 o'clock Thursday afternoon. This was announced today by the Mine Workers on receipt of word that the Cincinnati conference had been adjourned.

ST. LOUIS, March 29.—Mines which produce 50,000,000 tons of coal annually in Illinois will close down Saturday night. Negotiations toward new contracts will begin in Chicago next Monday. No shortage of coal is expected if the mines do not reopen in two months.

REOPEN SADDLERY SHOPS WITH NONUNION MEN

DENVER, March 29.—Two big saddle manufacturers of Denver today began employing nonunion workmen. This action follows their inability to come to terms with the striking union employes who went out several days ago in compliance with orders from national headquarters. The two concerns announce that within a short time they will not only have complete open shops but also nonunion shops.

MARCUS DALY'S DAUGHTER WEDS HUNGARIAN COUNT

NEW YORK, March 29.—Miss Harriet Holmes Daly, daughter of the late Marcus Daly of Butte, Mont., was married to Count Anton Sigray of Budapest, Austria, this afternoon at the home of the bride on Fifth avenue. The ceremony was performed by Monsignor Lavelle. The couple will travel in Europe.

FARMERS' CHILDREN TO STUDY AGRICULTURE

FORT COLLINS, Colo., March 29.—Plans have been perfected by Prof. H. M. Cotterell of the State Agricultural college to organize the 60,000 boys and girls of the rural schools in Colorado into agricultural clubs for the purpose of studying agriculture. This work will be undertaken within the next few weeks.

COLORADO EDUCATOR GIVEN HIGH POSITION

BOULDER, Colo., March 29.—Prof. H. A. Hollister, for four years principal of the University Hill school in this city and an instructor of pedagogy in the University of Colorado, received word today that he has been appointed superintendent of schools at Marion, O. Professor Hollister formerly taught at Trinidad.

BAIL WILL BE ACCEPTED

Eight Members of Maybray Gang to Be Released Pending Review of Case.

DENVER, March 29.—Word was received in Denver today that eight members of the Maybray gang convicted recently in Council Bluffs, Ia., of swindling seekers after "easy money" through fake prize fights, wrestling matches and races, will be admitted to bail, pending a review of their case in the United States court of appeals.

This information was contained in a telegram to C. A. Irwin, who, with George M. Mane, of Council Bluffs, has been retained to look after the interests of the accused men. The telegram said:

"Writ of error and order admitting to bail signed."

The men affected by the order are Willard Powell, Harry Forbes, Clarence Forbes, Ed McCoy, Leon Lozier, Ed Leach, Thomas S. Robinson and Clarence Class.

DEFENDS CATTLE RAISERS

Murdo Mackenzie Asserts Producers Are Not Responsible for Increased Cost of Meat.

WASHINGTON, March 29.—Murdo Mackenzie, representing the cattle raisers of the west, today defended producers against charges of responsibility for the increased cost of beef. He was a witness before the Senate committee investigating the high cost of living.

"Increased prices of corn, higher wages we must pay our help, and increased cost of everything else we have to use in our business compelled us to raise the price of cattle," declared Mr. Mackenzie. He said the advance in price began April 1, 1900.

The witness laid some of the responsibility at the door of the new tariff law.

BID DEFIANCE TO LORDS

Leaders in House of Commons Debate Resolutions Dealing With Veto Power.

LONDON, March 29.—The first day's debate in the house of commons on Premier Asquith's resolutions dealing with the veto power of the house of lords proved that the lords will not yield their privileges without a great struggle.

A. J. Balfour, opposition leader in the house of commons, declared plainly the intention of his party was to take the first opportunity to repeal any measure restricting the lords' power of veto.

Mr. Asquith's speech put heart into his conglomerate party and the speeches of John P. Redmond, for the Irish party, and George M. Barnes, for the Laborites, as well as those of the representatives of the Welsh constituency, all breathed defiance to the house of lords.

SUPPORTS CORPORATE TAX

Andrew Carnegie Says It Is True Step Toward Solving Evils of Combination.

ALBUQUERQUE, N. M., March 29.—"The day of combinations has come and their regulation is the only solution of the problem. The best step ever proposed in this direction is the true step toward solving the evils of combination," declared Andrew Carnegie here today, while en route to Pittsburg.

"The federal charter gives uniformity and corporations can afford to comply with the law because if they are not making money they cannot be taxed. Wealth is not being taxed enough in this country, he added.

TRINIDAD, Colo., March 29.—Andrew Carnegie passed through Trinidad tonight en route from Pasadena to Pittsburg. As Mr. Carnegie alighted from his private car he was greeted by Mrs. M. W. Babcock, whose father, David Bennett, was a boyhood friend of the steel magnate. Mr. Carnegie recalled the fact that Mr. Bennett gave him his first position as a weaver's assistant at a wage of $2.50 a month.

WATCHMAN MURDERED IN RAILROAD YARDS

CHEYENNE, Wyo., March 29.—The body of Edward Scott, a railroad watchman, was found dead in the Union Pacific yards here last night. It is believed he was murdered by box car thieves, but no clue to their identity has been found. Scott was 29 years of age and the son of former Postmaster J. C. Scott of Sterling, Colo. He was evidently killed by a blow on the head.

TWO KILLED, TWO HURT, IN HEADON COLLISION

SHERIDAN, Wyo., March 29.—Two were killed and two seriously injured in a headon collision of freight trains at Ulm, a small station a few miles east of Sheridan, at 6 o'clock this morning.

The killed:

JACK ESBREY, fireman.
WILLIAM HARE, a brakeman.

The injured:

John Marron, engineer, badly scalded.
Ben L. Shopley, fireman, internally injured, may die.

The collision was due to a mistake in orders and a blinding snow storm.

KANSAS CITY'S TREASURER DROPS DEAD OF APOPLEXY

KANSAS CITY, Mo., March 29.—William J. Baehr, treasurer of this city and prominent in local Republican politics, dropped dead at his home here today of apoplexy, aged 46 years. He was the only Republican elected to an important office at the last municipal election.

INTEND TO SET NEW MARK

Five Hundred Chicago Business Men Undertake to Collect $350,000 for Y. M. C. A. by April 12.

CHICAGO, March 29.—Five hundred business men of Chicago lined up yesterday for the greatest money raising race against time ever undertaken by a Young Men's Christian association.

The purpose is to collect $350,000 by April 12 in a whirlwind campaign that will rush the jubilee building and endowment fund past the $1,000,000 mark, and set a new record for cash getting in a hurry.

No city ever tried to raise more than $1,000,000 for its Y. M. C. A. Since the movement started with the fiftieth anniversary two years ago $822,000 has been raised, but now the organization's needs have grown, and with them has developed the determination to go after the total sum needed $1,170,000.

BANDMASTER'S WIFE GRANTED A DIVORCE

SEATTLE, Wash., March 29.—Mrs. Mary MacAuley Garguilo was granted a divorce by the superior court here today from Enrico Nicolo Garguilo, a bandmaster of Denver. Mrs. Garguilo, who is the heir to a fortune and prominently connected, met the bandmaster while she was attending school in Washington, D. C., and Garguilo was giving concerts there. The couple were married in Philadelphia, June 20, 1904. The divorce was asked for on charges of abandonment and cruelty. Mrs. Garguilo was given custody of the child, a three-year-old boy. No alimony was allowed.

SALE BY A BELLBOY NOT GOOD EVIDENCE

DENVER, March 29.—Because he held that liquor purchased from a bellboy was not evidence of violation of the Sunday closing law, Judge George W. Allen today ordered the jury to return a verdict of "not guilty" in the case against J. G. Nicholas, manager of a local hotel. At the hearing it was shown that Detectives J. L. Finnegan and T. Debarport rented a room at a certain hotel, rang for the bellboy, and ordered two flasks of whisky and two bottles of beer.

TWO COLORADOANS DIE AWAY FROM HOME

GRAND JUNCTION, Colo., March 29.—James S. Carnahan, an attorney of Grand Junction, died today in Phoenix, Ariz., according to a telegram received here. The body will be brought here for burial.

CENTRAL CITY, Colo., March 29.—Word was received today of the death of William J. Buffington, former sheriff of Gilpin county and member of the state legislature, at the home of his brother in Brownville, Pa., aged 85 years.

ROCK ISLAND WRECK AT GREEN MOUNTAIN.

First picture of the disastrous wreck at Green Mountain, Iowa, in which 50 persons were killed and almost as many more injured. The picture shows the Pullman car after it had leaped over onto the day coach, crushing it like an egg shell. Only the platform of the day coach is visible as every vestige of the superstructure was torn away by the Pullman. The 50 people killed were all caught between the two cars.

WEDNESDAY, MARCH 30, 1910.

THE PROPOSED BUREAU OF MINES.

ON January 26 the House passed a bill providing for the creation of a Bureau of Mines in the Department of the Interior, an amended version of which is now pending in the Senate. In the language of the bill the purpose of such bureau would be "To make diligent investigation of the methods of mining, especially in relation to the safety of miners, and the appliances best adapted to prevent accidents, the possible improvement of conditions under which mining operations are carried on, the treatment of ores and other mineral substances, the use of explosives and electricity, the prevention of accidents, and other inquiries and technologic investigations pertinent to said industries, and from time to time make such public reports of the work, investigations, and information obtained as the Secretary of said Department may direct, with the recommendation of such bureau."

It is provided that the bureau be in charge of a director, "who shall be thoroughly equipped for the duties of said office by technical education and experience," and who shall receive a salary of $6,000 a year. For several years the Geological Survey has conducted investigations corresponding to some extent to the work here outlined for the new Bureau of Mines, and it is provided that all of these activities be transferred to the bureau.

CHANCES FOR USEFULNESS. The three great branches of industry are commerce, agriculture and mining, and these create and contribute virtually all of our national wealth. For more than a quarter century we have had a Department of Agriculture to foster and protect the farming interests of the nation, a regularly organized subdivision of the Federal Government with its head a member of the President's Cabinet. About five years ago the Department of Commerce and Labor was formed primarily to do for the commercial and manufacturing interests of the country what the Agricultural Department does for the farming interests.

But the mining industry is and always has been entirely neglected, so far as any official recognition of its existence by the Government is concerned. Even in Colorado, where mining was the first and until recently the most important industry, few of us appreciate the full extent of the contributions it makes to our national wealth. Throughout the country approximately 1,000,000 men are constantly engaged in mining, and the annual production totals in round numbers about two billion dollars.

These are figures calculated to inspire pride, but there are other figures which are by no means so gratifying. For instance, the waste in mining almost equals the production, and the risks to human life are so great that an average of more than 2,000 men are killed every year. This is more than four times the average fatality in European mines, and the contention is made that if the same effort were put forth to protect workmen here that is made in Belgium, France and Germany, the industry in America could be made as safe as it is abroad.

Such awful recent coal mine disasters as those at Cherry, Ill., and Primero, Colo., emphasize the need of unceasing activity to attain this end, and whatever might be the cost of maintaining a Bureau of Mines it would not be excessive if it resulted in a considerable reduction of the mortality.

THE DEATH OF JUSTICE BREWER.

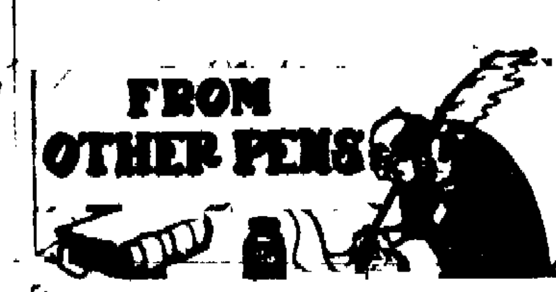

IT is a matter of pride to Americans that the traditions of the Supreme Court are of the best. It is unique among the tribunals of the world. In no other country is there a court that discharges the same functions or possesses anything like its authority. The wisdom of the founders of the nation which created it as one of the three coordinate branches of the Government has been abundantly justified, for from the beginning it has exerted a wonderful influence in shaping the very character of the nation. The constitution itself was a comparatively formless code of laws until after Chief Justice Marshall had devoted more than a third of a century to its interpretation.

When we consider the tremendous power vested in the Supreme Court and the epoch-making importance of the decisions it hands down from time to time it is nothing less than a marvel that in nearly a century and a quarter of existence it has never really been affected by the breath of scandal. It is true that on one or two occasions an individual member of the court has been suspected of wavering in his devotion to its highest ideals, but no charges have ever been made or sustained.

A GREAT MAN AND JURIST. Justice Brewer, whose sudden death Monday night has shocked the nation, will easily rank as one of the greatest of the long line of distinguished jurists who have made the Court what it is. He possessed a brilliant legal mind and a profound knowledge of the law, and when appointed to the Supreme Bench twenty years ago he had already acquired excellent training for the position by more than a quarter century of service on the federal and state supreme benches of Kansas.

Justice Brewer differed from most of his associates in his interest in public affairs generally, as distinguished from purely judicial matters. It is said that Justice Holmes will not read a newspaper for fear of being influenced by something it may contain in regard to litigation pending before the Supreme Court. But Justice Brewer suffered from no such hallucination. He was in close touch with current events and wrote and spoke frequently on public questions, but always with a fitting sense of propriety.

His death, following so soon after the passing of Justice Peckham and considered in connection with the prolonged illness which has incapacitated Justice Moody for several months, seriously weakens the Supreme Court—especially because some of the most important cases of the present generation are now pending before it. Justice Brewer was truly a great man and a great jurist and his place will not be easily filled.

NEW PUBLIC BUILDINGS IN WASHINGTON.

From the Philadelphia Inquirer

The Senate has passed a bill appropriating $12,000,000 for the erection of new department buildings in Washington structures which are sadly needed. The ground has been secured and the buildings will be placed according to the Burnham plan for making the city the most beautiful in the world. Not a voice in the Senate was raised against the appropriation, but it is said there will be some opposition in the House.

The bill should pass. There are several great departments which are not properly housed, and we shall have to erect many more buildings before the sweep from the Capitol to the White House is filled with proper public structures. Washington is improving all the time and in a few years ought to be pretty close to the ideal.

The important thing about Washington is that it is growing as a city outside of mere official affairs. It is becoming more and more the home of the cultured and scientifically trained people of the country. A few generations hence it will be the capital of the country in more than its present restricted sense. The nation is willing to spend any reasonable sum to make Washington a credit not only to the country but to the whole world.

✦ ✦

THE FUGITIVE LAMA.

From the New York Tribune

The precipitate flight of the Grand Lama of Tibet from Lassa to an asylum somewhere in British India marks the culmination of an epoch in that part of the world. The beginning of the end occurred some time ago, when a British expedition invaded the mysterious precincts of the Forbidden Land and its holy city, while the Chinese government maintained an indifferent if not an approving attitude toward what a few years earlier would have been deemed monstrous sacrilege. The next step was the Dalai Lama's own act in making a junketing tour through China, as a result of which he divested himself of the last remains of the divinity which for aged had hedged him and his predecessors about. After that there was nothing for it but to regard Lassa as any other city and to replace the obsolete hierarchy of the lamaseries with the constitutional authority of the Chinese government.

Thus practically ends the story of Tibet as a land of impenetrable mystery and of sacerdotal rule, and of anomalous status as at once the vassal and the suzerain of China. We may expect it now to be opened to civilization and to commercial intercourse, like the rest of the empire of which it forms a part. That it will be economically an important factor may be doubted, unless great mineral resources are developed among its mountains. Agriculturally and industrially it will not compare with the bulk of the Chinese empire, while its inaccessibility would in any case seriously handicap its commercial development. Perhaps the most important consideration is that there will now be a clearing up of the anomalous political situation which has hitherto prevailed, through the making of Tibet amenable to the common international laws and customs of the world.

✦ ✦

OUR TRADE WITH BRAZIL.

From the New York Tribune.

The official negotiations, for the extension of our trade with Brazil through the exchange of American coal for Brazilian iron call attention to an anomalous and not creditable state of affairs in the commercial relations between the chief countries respectively of North and South America. Brazil is a country vast in extent, large in population, almost inestimable in resources, enormous in needs and stable, enlightened andd progressive in government. Its great northern ports are much nearer to us than they are to any European ports. Its commerce with us has long been large. But the balance of trade has always been enormously against us.

To go back 45 years, in 1865, Brazil sold us goods worth more than $3,204,000, or, say, 50 per cent more than we sold her, and there has not been a year since when the proportion against us has not been even larger. In 1892 we sold her goods valued at $14 291 000 and she sold us goods valued at $118 633 000. We have been buying from her about as much as she sells to all the rest of the world, while in sales to her we have been fighting hard to keep as high as fourth or fifth place. Yet we have the things which Brazil needs. She buys millions of dollars' worth of coal every year from England, while our coal mines are a thousand miles nearer to her. She buys many millions' worth of cotton in various forms from England, while our cotton fields and factories are only half as far away. Her great imports of machinery and iron work also come largely from Europe though these also are things which we boast ourselves better able to supply than any other land.

Perhaps some explanation of this highly unsatisfactory condition of affairs is suggested in the statement that the envoy who has been in this country conducting the negotiations in question "will sail for Rio by way of Europe to make his report to his government." Of course, he must sail by way of Europe if he wishes to get to Rio with comfort and rapidity unless he waits for the sailing day of some Brazilian or other steamer which will take him directly home. Since John Roach was forced, by a stupid and unpatriotic government policy, to abandon his Brazilian line of steamers, travel between New York and Rio has perforce been by way of Europe, more than twice as far as the direct distance, or else under some other flag than the Stars and Stripes. And, by the way, in the same paper there was record of the establishment of a new line of first class express steamships between France and Argentina. Perhaps if Switzerland, Andorra and San Marino were also to establish direct shipping lines to South American ports the United States might in time be roused to emulate their example. As it is, what prospect can there be for American trade with Brazil while our flag is unknown in Brazilian ports?

✦ ✦

THE OPIUM WAR.

From the Philadelphia Public Ledger

China is making significant progress in her warfare against opium. For 70 years practically the whole foreign supply has been the 46 000 chests annually imported from India, with the sanction of the British government. China is now petitioning Great Britain against the objection of those who reap an enormous profit from the sale of the drug to limit the production of opium in India, concurrently with the suppression of the culture of the narcotic poppy in China.

In one Chinese city 7,000 opium dens have been closed, and in others from 1,000 to 3,000. According to the last report of the Chinese Antiopium league, over a million of these dens in all have been forced out of business by the unremitting crusade now being conducted against them. In 11 out of 18 provinces the cultivation of the poppy has entirely or almost entirely ceased, though the great British opium farm at Hongkong continues to yield a profit of $800,000 a year to the company that controls it. Thousands of officials have abandoned the use of the drug. The governor of Kiangsu, instrumental in the punishment of the Paotingfu murderers in the Boxer uprising lost his life in his heroic effort to break the hold of the tyrannous habit upon him. Every opium smoker is registered and official refuges are established for those who have been compelled to reform by the edict originally issuing from the throne and enforced by the viceroys and governors in their several provinces.

The greatest missionary work Great Britain could do in China would be to forbid sending the 46,000 chests of "concentrated poison and death" every year into China from India. Until the British government decides to sacrifice the profits of this iniquitous traffic, the influence of the men of religion who are sent in the same ships with the chests of the lethal drug will be enormously discounted and in many cases absolutely neutralised.

The time's at hand when I will take my trusty spade and gardenrake, and wear old clothes, and fuss around at planting doodads in the ground. I'll plant a lot of cabbage seeds, and when they grow they'll turn out weeds; I'll make a frame of wire and twine, on which may grow the carrot vine, and tinker round at building screens, to shield my growing can of beans. And neighbors hens will come and scratch the stuffing from my garden patch, and hungry cows with wooden horns will spoil my bed of harleycorns, and mangy dogs and one-eyed cats will ruin all my marrowfats, and snakes and skunks and goats and owls, and toads and bats and guinea fowls will make my yard their place of rest, and knock the whole thing galley west. And I will cuss my neighbor when he fails to chain his sorrel hen, and he will shoot my buggy horse, because it ate his patch of gorse; we'll all be pulling hair and ears, and everyone will be in tears; and when the cops have run us in, the judge will murmur. "What a sin, that neighbors come to such a pass, for ten cents' worth of garden sass!"

SPRING IS COMING.

WALT MASON.

Copyright, 1910, by George Matthew Adams.

The Daily Chit-Chat

Why should a man be proud of disliking most of his fellowmen?

And yet every one who likes but few people seems to be proud of the fact.

Why should man be proud that he can see little good in human nature, because he has discovered the remarkable truth that most men are bad and most women are false?

And yet did you ever meet a cynic who wasn't proud of that title?

I suppose the reason for this pride is that the people who discover so many faults and find so few people worthy of their friendship, regard it as a sign of their superior wisdom that they are capable of discovering the faults, and a sign of their superior discrimination that they are so hard to please.

Wonder if it ever occurs to these people that it shows just as great a wisdom and discrimination to find virtues as faults.

It isn't a sign of superior wisdom to call an apple rotten because it has one bad spot, is it?

The man who sees the little flower growing by the roadside has just as sharp eyes as he who sees only the ugly earthworm, hasn't he?

I once knew a dear little girl who liked everybody. With everyone she met she was pleased. Everyone was good, or pretty, or clever, or attractive, or in some way likable according to this young person.

And then she got in with a crowd of girls older than herself, and acquired better (?) judgment.

She learned to see the faults in and make fun of everyone she met.

She learned to make her circle of friends a very exclusive one and even in this select circle to find many imperfections. It was a case of "all the world's queer except thee and me, and sometimes I think that thee is a little queer."

And I know she thought that she had improved and looked back with derision on the blind little girl she had once been.

While really she is just as blind as she ever was. She used to see one-half the picture and now she sees the other half. And the half she sees now isn't near so pretty, and looking at it doesn't make her nearly so nice a girl as looking at the other half did.

For it's one of the greatest truths in this world that the more you can love people and the more good you can find in them the more lovable and worthy you yourself will become.

The man who sees all the hidden faults in people and sees nothing else is not a good judge of human nature any more than the man who can cleverly pick a book to pieces is thereby a good critic.

Good criticism, in its right sense, doesn't mean merely finding faults. It also means appreciating good qualities.

Don't be proud of yourself because you can see faults. It isn't a thing to be proud of. You are much more an object for pity than pride.

Menus With Recipes

WEDNESDAY.

BREAKFAST.

Fruit. Oatmeal. Sugar and Cream
Fried Smelts. Creamed Potatoes.
Rolls. Coffee.

LUNCH.

Eggs Duchesse. Tomato Sauce.
Gingerbread. Cocoa.

DINNER.

Spinach Soup. Broiled Shad. Potatoes.
Asparagus Tips. Lettuce Salad. Olives
Wafers. Cheese. Apple Custard Pie. Coffee

Eggs Duchesse—Boil half a dozen eggs for half an hour, chill in cold water, then shell them and cut into quarters lengthwise. In a saucepan put one tablespoonful of butter, one tablespoonful of flour and stir until melted but not colored. Add gradually one cupful of veal or chickn stock and stir until thick and smooth. Add salt and pepper to taste one tablespoonful of vinegar, two of capers and one of chopped parsley, lay in the eggs and simmer gently for five minutes. Serve on a hot platter garnished with toast points and a few tufts of parsley.

Apple Custard Pie—Peel sour apples and stew until soft. Rub through a colander and allow one and one half cupfuls to each pie. To this quantity add one-third of a cupful of butter, three well-beaten eggs and sugar to sweeten. Flavor with nutmeg or cinnamon ... undercrust only and bake in a moderate oven.

UTAH COPPER COMPANY BEHIND NEW BANK

According to word received from Salt Lake City yesterday, C. M. MacNeill and Spencer Penrose of this city, together with D. C. Jackling and others interested in the Utah Copper company, will, after April 1, be the controlling factors in the banking house of W. S. McCormick and company of the Utah city. Mr. McCormick will be president and Mr. Jackling vice president of the bank. The incorporation will be effected on the first of the month. The business which the new interests will take over is considered the largest private bank in the west.

Mr. MacNeill and Mr. Penrose are expected to return to this city today from an inspection trip of their copper properties in several of the western states.

COLLEGE OPENS. Colorado College opened for the last quarter of the year yesterday, after a 10 days' vacation. The senior engineers have not returned from their mining inspection trip, but are expected home in a few days.

TESTS FOR OFFICERS

Men at Head of Local Militia Company Will Be Examined as to Ability.

Next Tuesday evening the officers of Company A, Second regiment, C. N. G., will be given an examination to determine their fitness to retain the positions they hold. Gen. John Chase of Denver, or Col. C. B. Carlisle of Pueblo assisted by Capt. F. J. Burnham of this city who has already taken an examination and has been appointed adjutant on Colonel Davis' staff will conduct the tests. Last Saturday the officers of the company attended a school at Denver at which a number of questions were submitted to them regarding stratarithmetry. The answers to these questions will be submitted by the officers at another school to be held within the next few weeks.

J. KLING WILL LEARN CONDITIONS TOMORROW

NEW YORK, March 29.—Conditions in the reinstatement of Catcher John C. Kling into the good graces of organized baseball, which will be officially announced Thursday, include his assignment to a baseball club, according to President Thomas J. Lynch of the National league who is one of three members of the national commission which passed on the case.

"The decision inflicts a certain penalty on Kling," said President Lynch today, "and names the club with which he must play."

FILE DIRECT INFORMATIONS AGAINST WARKENTEIN

Two informations charging forgery and obtaining money under false pretenses have been filed in the district court by the district attorney's office against Homer Warkentein. Warkentein will be arraigned today and it is said that he will plead guilty to forgery. He is charged with cashing a bogus check for $100. The check was on the Chase National bank of New York and was given to J. H. Griffith of Manitou. The name of Orville P. Black, treasurer of the Electro Importing company, was signed to the check.

NO DATE SET FOR CIVIL SERVICE TEST

No date has been set by the civil service commission for holding the promotion examination to select a successor to Police Sergeant C. N. Draper, whose resignation was received Monday morning. Members of the police force are eligible. From the three highest men passing the examination, Commissioner Whitaker of the department of public safety will recommend one to the Mayor, who will make the appointment. Draper's place is being filled temporarily by Patrolman Bob Martin. Patrolman J. W. Henderson is being mentioned as a strong candidate to succeed Draper. Until the examination is held nothing will be known regarding the appointment.

DEATH—Mrs. Anna E. Hendricks, 41 years old, died yesterday morning at her home, 424 West Kiowa street. The funeral will be held this afternoon from the residence. Interment will be in Evergreen cemetery.

SILENT FORCES RULE

Power for Good or Evil Determined by What One Is, Not What One Says.

An interested and enthusiastic audience filled the first Methodist church last night to hear the Riddell lecture on "Psychic and Spiritual Phenomena." The address was clear cut and scientific. The speaker made a very sharp distinction between psychical and spiritual perception, and showed how one might have all of his powers of psychic perception thoroughly awakened, and yet be dead as a post on the spiritual realm. Mr. Riddell's ideas were in part as follows:

Thought Waves.

"Silent forces rule the world. The power of a man's life for good or evil is determined, not so much by what he says, as by what he is. The law of magnetic influences show why this is so. Voluntary magnetism, being but a radiation of thought waves, correspond in strength and character to the mentality that produced it. Cold intellectual thinking produces an intellectual magnetism, vicious thoughts, feelings or desires produce a corresponding radiation; hence as one thinks and feels, so will be his voluntary magnetism. Now, since 'like excites like' one's influence over others for good or evil necessarily corresponds to his inner thoughts, feelings and desires.

"The universe," said the speaker, "is apprehended by man on three planes, a physical, a physical and spiritual. The spiritual is cause, the physical effect. The spiritual is eternal, changeless; the physical is transient and undergoing constant change. The spiritual is positive; the physical negative.

"Man is a little world, a physical, mental and spiritual epitome of the universe. In his physical nature he embodies the elements of the physical universe. In his life and psychic nature he includes the lower forms of life plus the attributes of self-consciousness. In the innermost, or spiritual nature, he is the image of God—a spiritual being. Through his threefold nature he is related to the threefold world of which he is a part. His five senses enable him to take cognizance of and become acquainted with the physical world, its facts, laws, forces. His psychic nature perceives telepathetically, psychic forms, vibrations, facts and phenomena of the psychic realm. His spiritual nature, when awakened, perceives spiritual things, receives the inspiration of the Holy Spirit, holds communion with the spiritual realm and with God."

Tonight Mr. Riddell will speak on "From Adam to Christ," explaining the natural steps from the natural to the spiritual plan and spiritual evolution.

ISSUE MANY PAMPHLETS

Nearly 2,000,000 Pieces of Advertising Literature Prepared by D. & R. G. and Midland.

"Glimpses of Utah," "Around the Circle," "Ancient Ruins of the Southwest," "Fertile Lands of Colorado," and a "Utah Folder" are some of the titles of pamphlets which will be sent out broadcast over the country by the Denver and Rio Grande railroad this year. A special booklet will be made up for the National Irrigation Congress which meets at Pueblo in September. Over 1,500,000 copies of the pamphlets have been printed.

The Colorado Midland railroad is another company which will get out an extensive set of literature advertising this section and the state in general. Two of the most important pamphlets by this road will be entitled, "Thru the Rockies" and "Soil and Products," the latter being prepared by Prof. W. H. Olin, formerly of the State Agricultural college at Fort Collins. It is expected that about 400,000 of these booklets will be off the press by June.

125 TOURISTS REACH CITY TO VIEW SIGHTS

In the neighborhood of 125 tourists arrived in this city, Colorado City and Manitou yesterday. This is considered the first real delegation of tourists, as most of those who came yesterday intend to remain in the region for a week at least. According to railroad officials, yesterday's quota of travelers is but a drop in the bucket when compared with those who are to come, for present indications are that this year will witness the banner influx of visitors to the region.

GREAT INJUSTICE IS DONE CONVICTS

TELEGRAPH'S STORY OF ROBBERY IS UNFOUNDED.

Physical Impossibility County Commissioners Are Indignant, Banta Talks

The county commissioners of El Paso county are indignant at the action of The Evening Telegraph in publishing an article yesterday afternoon to the effect that convicts from the camp in Dead Man's canon are suspected of committing petty thefts in Ivywild. The article shows that the writer has no knowledge whatever of conditions at the convict camp. According to the Telegraph certain convicts, in an effort to accumulate money to be used in securing pardons, are in the habit of slipping away from camp after nightfall walking to Ivywild, entering numerous houses and, after carefully examining everything, carrying away articles which may be converted into money. Just where the stolen articles are secreted after the return to camp or how they are converted into money is not explained.

The convicts are counted as they enter their tents and retire at 9 o'clock p. m. daily. While asleep they are counted at midnight, and a third count is made at daybreak. A lighted lantern hangs in front of each tent throughout the night, and the camp is patrolled by a guard. Men who have worked hard for eight hours may be able to walk a distance of 30 miles in three hours, twice eluding the guard, but that this is the case is hard for the average person to believe.

In discussing the article, Commissioner Banta last night said:

"It is a shame that an effort should be made to put a slur on the excellent work that is being done at the convict camp. There is absolutely no truth in the report that the convicts are robbing Ivywild residents. As a matter of fact, it would be impossible for any of them to slip away and return without being observed. The convict camp is one of the best regulated and most orderly in the world."

SEEKS RIGHT OF WAY

New Electric Railroad Confers With County Commissioners; Taken Under Advisement.

The county commissioners yesterday received and took under advisement a request from R. F. Van Duesan, secretary-treasurer and right-of-way agent of the Denver, Colorado Springs and Pueblo electric railway, for permission to cross the county road three times in the vicinity of Table Rock. Mr. Van Duesan said that the company will maintain a two-hour schedule. County Commissioner Hutchinson says that the new road will be of great service to the farmers in the territory through which it is to run.

ENGINEERS COMING

Will Investigate Local Conditions for D. & R. G. Railway Co. Within Few Days.

From General Manager H. W. Clark of the Denver & Rio Grande railroad, word was received yesterday that within a short time a corps of engineers for that road will come to Colorado Springs to make surveys in an effort to relieve the present congested conditions here. While not showing the attitude of his road regarding the union depot question, Mr. Clark appeared to think that that phase of the matter depends largely upon the findings of the engineers, who will investigate the situation thoroughly.

In local circles it was stated that little progress has been made in the union depot proposition. At present the committee in charge of the preliminary work, of which H. H. Seldomridge is chairman, has written letters to practically all the railroads, and is waiting for them to take some action. Mr. Seldomridge said yesterday that few of the companies have answered the inquiries sent out by the committee.

EXPLORE NEW CAVE

Centipede Caverns in Williams Canon May Be Thrown Open to Public

R. D. Weir of this city and J. F. Sanford of Manitou have had a force of men exploring the cavern known as Centipede cave in Williams canon for several days with the intention of opening up a series of caves. The cave has penetrated into the mountain side about 100 feet and to a depth of about 40 feet, and it is claimed that the caverns discovered are beautifully decorated and that there are a number of stalactite and stalagmite formations. The men will push the work in order to open the cave, if it is of value, before the tourist season.

R. F. MORRIS A DIRECTOR OF NEW TELEPHONE CO.

The name of R. F. Morris, formerly manager of the local branch of the Colorado Telephone company, appears among the names of the directors of the Tri-State Telephone company, which has filed articles of incorporation at Santa Fe, N. M., to operate in New Mexico, Arizona and Texas. The capitalization is $1,000,000. Mr. Morris recently went to El Paso, Tex., to become manager of the Texas division of the company. The company's main headquarters is at Denver.

EGGS DISTRIBUTED.—The Salvation Army distributed 15 dozens of eggs yesterday to the poor sick of this city. The eggs were to have been presented on Easter Monday, but the accident to Adjutant Hurst delayed the work. The business men of the city donated the eggs.

DUAL DEBATE NEXT FRIDAY EVENING

Local High School Against Denver in That City and Versus Pueblo Here

The interscholastic debate between Colorado Springs High School and Centennial High school Friday night, promises to be one of the interesting literary events of the season. The local team is composed of Miss Emma Cowan, Robert Sanday and Norman Lamb, and will uphold the negative of the question: Resolved: That the United States government should establish a graduated form of income tax graded, first that incomes under $2,000 be exempt; second constitutionality not to be considered. The affirmative team composed of Chadwick Perry, Herbert Brown and Forrest Dickey will debate with the East Denver High school team in Denver on the same question at the same time.

4 DEAD IN SIX MONTHS

Heads of Big Express Companies Succumb Within Short Space of Time.

Four heads of big express companies dead within six months, three of them dying in the same month, and two of them within the space of 24 hours, is the record of the grim reaper in one line of business. This peculiar fact became known yesterday after the report of the death of President L. C. Wier of the Adams Express company.

This remarkable death list, together with dates on which members died, is as follows: Michael J. O'Brien, president Southern Express company, September 11, 1909, 71 years old; T. C. Platt, president United States Express, March 6, 1910, 77 years old; Dudley Evans, president Wells-Fargo, March 27, 1910, 72 years old; L. C. Wier, president Adams Express, March 28, 1910, 68 years old.

The deaths of these men have attracted no more than passing attention from most people, but among express employes, it is regarded as a most peculiar coincidence indeed that so many heads of companies in their particular line of business should come to an end within such a short time.

DON'T KNOW DIRECTION

People Seldom Distinguish East From West, so Postoffice Signs Are Changed.

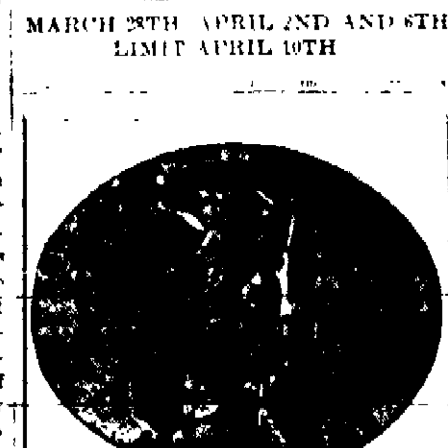

Persons mailing letters at the postoffice yesterday found a slight change in the arrangement of receptacles for this matter. The mail slots have been moved over to the left of the center aisle in the main corridor. These are five in number and are marked: "Cards," "Papers," "Colorado," "State" and "General." The signs marked "east," "west," etc., which were in the old postoffice will not be used, as it has been shown by experience that only about two or three out of every 10 persons know which direction to send mail even though they do know the names of the cities to which the matter is addressed.

In the space at the right of the aisle where the mail slots were formerly two large windows will be cut for the use of carriers.

WILL CALL FOR BIDS

Architects Have Plans for New Sons of Israel $10,000 Temple Nearly Completed.

Architects engaged in the work have almost completed plans for the new $10,000 Sons of Israel temple which is to be erected at Dale street and Cascade avenue, and it is probable that bids for the construction work will be called for about the first of next week. Other expenses besides the actual cost of the temple will amount to about $5,000, so that the project when completed will represent an outlay of approximately $15,000. There are about 100 families in this section who belong to the Sons of Israel.

It is understood that the Sons of Abraham, who were asked to join the Sons of Israel in building the temple, have decided to secure a rabbi from New York and to rent a building in which to worship for the next 18 months at least.

ASKS LAWS PROTECTION

Mrs. Alice Sanford, Seeking Divorce, Says Husband Threatened to Kill Her and Son.

Because she says her husband has threatened to kill her and her 8-year-old son, Mrs. Alice Sanford, wife of Winso D. Sanford, 721 North Corona street, has left her home and with her son is hiding until Sanford has been served with papers in her suit in the county court for separate maintenance. Mrs. Sanford says that her husband frequently threatened to murder her and her child.

The Sanfords experienced their first trouble shortly after their marriage. Mrs. Sanford, who found her husband through the medium of a matrimonial agency, learned that he was a widower and that his wife had been dead only a few weeks. She claims that he deceived her. She also says that Sanford advertised for a wife before his first wife was dead.

SEVERAL REALTY DEALS

Recent Sales by Hastings-Allen Company Aggregate $4,000. Buying Lots.

A number of small deals have been reported by the Hastings-Allen Realty company, all of them aggregating about $4,000. The various persons interested are as follows: Lots in Hastings seventh addition sold to Ray C. McMahon, $450, and James I. Snyder, $400. Charles A. and Harriet E. Benny purchased a lot in the same addition and will erect a five-room dwelling, the whole to cost about $2,300. In the Hastings addition No. 3 Thomas Houseman purchased a lot for $100, and in addition No. 4 Ralph C. Peabody becomes the owner of a $500 tract of ground. The company has about completed the work of grading and leveling of land recently acquired near the golf club house, and the Grewel Moving company has been given the contract for removing all the loose lumber, shops and sheds to the place.

INVESTIGATION—Constable H. H. Lyons yesterday investigated the theft of a rifle and shotgun from John Burgess, a ranchman living near Breed, Colo. Armed with a search warrant, he searched the house of a neighboring ranchman where the stolen articles were believed to have been secreted, but found the man innocent.

DEATH—Mrs. Lottie Hession, aged 40 years, died yesterday afternoon at her home, 127 East Bijou street. She is survived by her husband, J. Hession, and a daughter. The family has lived here eight years. The body will be taken to Humboldt, Ia., this afternoon.

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes, are among the greatest blessings a mother can bestow upon the little life about to begin. Her happiness and physical comfort will largely govern the proper development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and mental comfort it affords. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mammary glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain and danger when baby comes, and assures a quick and natural recovery for the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

BELATED BLIZZARD SWEEPS THE WEST

(Continued From Page One.)

Marshall Pass, delaying railroad traffic. At Sulphur Springs snow fell yesterday and last night and has continued all day with the thermometer registering about 20 degrees.

Heavy Snow in Wyoming.

CHEYENNE, Wyo., March 29.—Heavy snow, driven in sheets before a 50-mile-an-hour gale, prevailed today over eastern Wyoming and western Nebraska. Wires are down in many places and trains are being delayed. Tonight there are several feet of snow in many places and it is drifting badly. Street car traffic here has been cut off and many wires are down on the Union Pacific railroad. Train No. 2 on this road is snowbound at Egbert and No. 5 is snowbound at Borie.

OGDEN, Utah, March 29.—The worst storm experienced on the Great Salt lake since the construction of the railroad across the lake churned the waters into a maelstrom and sent waves of great height against the embankments of the Ogden-Lucin cut off early today, washing out part of the east and west approaches to the bridge and causing the tie up of all traffic on the Southern Pacific.

The wind attained the proportions of a hurricane at an early hour this morning, the storm gauge at Midlake in the center of the trestle on the lake recording a velocity of 70 miles an hour.

Southern Pacific officials tonight declare but little damage has been done to the main line and that slight tests and repairs on the cutoff across Great Salt lake will permit resumption of regular schedules by tomorrow evening. Tonight trains are being sent over the old line around the lake.

SALT LAKE CITY, March 29.—The Western Pacific line across the south end of Great Salt lake is unsafe for traffic because of today's storm but the officers themselves have been unable to learn the extent of the damage.

Colorado News via Chicago.

CHICAGO, March 29.—A terrific rain, snow and sleet storm, accompanied by high winds, which is raging through eastern Colorado and Western Nebraska, cut off Denver from wire communication with the east today and caused much delay to rail transportation. According to reports received by the telegraph companies here, trains on the Union Pacific and other western railroads traversing that territory are stalled in huge snow drifts and rotary snowplows have been called into service to relieve the blockade.

The storm appears to have diminished on the eastern slope of the Rockies, and moved rapidly eastward, the heavy snow being followed by a sleet storm whizzed across the prairie by a wind which has assumed almost proportions of a gale.

In many places poles have been carried down and the wires lay tangled in a mass of wreckage, which, it is understood will require several days to clear.

At Limon, Colo., the snow is five feet deep, blocking traffic on the Chicago, Rock Island and Pacific railroad. The high wind is blowing the snow into immense drifts.

The railway station at Genoa, Colo., was blown away but as far as known no one was hurt. Forty miles of telegraph poles were blown down between Fort Morgan and Wray, Colo.

The Kansas division of the Union Pacific railroad is reported blocked east and west of Limon. Not a train was moving west of Julesburg on the central division of the Union Pacific.

Several overland trains were reported stalled in snow banks at Snyder, Colo.

North Dakota experienced an old-fashioned blizzard, the wind piling up the snow in drifts.

Great Variety of Weather.

KANSAS CITY, March 29.—Western and central Kansas today experienced a heavy sand, dust and wind storm. Telephone and telegraph wires are down throughout this section. Trains are running from three to four hours behind schedules.

Several prairie fires have started. Farmers have fought desperately to check them as the grass is so dry it will be difficult to extinguish the flames if they obtain a start. It is feared the wheat crop will sustain great damage as many fields are covered with dust.

A high wind prevailed in Kansas City today and threatening clouds all day gave promise of a break in the drouth that has prevailed practically since March 9.

A wind storm of almost tornado violence prevailed in southern Missouri this afternoon. More than a quarter of an inch of precipitation was recorded. The rain was accompanied by a high wind, which caused damage to billboards and mining plants. Showers were general over eastern and southern Oklahoma. The rain in St. Louis was the first that had visited the town since February 1.

The rain in Oklahoma was not sufficient for cotton planting but will help the corn crop.

SCRIPTURAL STORIES FULLY SUBSTANTIATED

DOUBTS REFUTED BY ARCHEOLOGICAL RESEARCH.

Vast Sums of Money Expended in Reading Riddles of Past and Wonderful Results Achieved.

By Frederic J. Haskin.

The recent discovery of an ancient tablet confirming the Bible story of the Deluge has been welcomed by those orthodox Christians and Jews who have faith in the historical accuracy of the Old Testament as further justification of their stand against that form of "higher criticism" which denies or doubts nearly all of the ancient hero tales of the Hebrews. The translation of the deluge tablet by Dr. Helprecht of the University of Pennsylvania is regarded as a long step forward in the campaign of archeological research that is being carried forward with such rich fruitage in Egypt and the Holy Land. Orthodoxy points out that it is a remarkable coincidence that when higher criticism seemed to be most successful in attacking the truth of the Bible, the strongest kind of evidence should be forthcoming in vindication of its historical accuracy.

The nineteenth century marked the beginning of the systematic archeological research and philological study which resulted in the "higher criticism," and which also is now being used by the faithful to refute all doubts and criticisms. Beginning with the finding of the Rosetta Stone by Napoleon's expedition to Egypt and coming down to the present day there have been many discoveries and translations of hitherto unknown and unreadable documents and monuments which bear out and confirm Bible history. The Higher Critics, some of them destructive and some of them professing to be constructive, have based much of their criticism upon archeological work, also but the orthodox believers now claim to have the better of the contest.

The record of triumphs of research to the credit of the believers in the Bible is a long one. For instance, the critics attack the fourteenth chapter of Genesis, saying that the Battle of the Kings therein celebrated was no more than a myth invented to glorify the reputation of Abram. But the archeologist has found tablets of that time which practically bear out the story in all its details. Ur of Chaldees was but a mythical city, said the critics. But the archeologists have located that ancient city which was the birthplace of the Patriarch.

When the nineteenth century began not a word of the inscriptions of the temples and monuments of Egypt and Assyria could be read. Then came the discovery of the Rosetta Stone with its inscription in three languages, which afforded the key to unlock the mysteries of Egypt. The hieroglyphics deciphered, the language was learned and the whole story of the political and social life of ancient Egypt was retold to mankind after four thousand years of silence.

Records Translated.

Even more wonderful is the story of the opening up of the mysteries of Babylon and Assyria. On the great rock of Behistun over two thousand years ago, Darius caused to be inscribed in three languages the record of his triumphs. This rock is 1700 feet high and the inscription is 300 feet above the base. In 1846 Major Henry Rawlinson, a British army officer, climbed up to this inscription and copied it, thereafter publishing a complete translation. Later the mounds of dust which covered the ancient sites of the cities of Babylon and Nineveh were located, and they gave up the secrets of the past. By aid of the Rawlinson discovery the entire language became known, its grammar reconstructed and its records made available. Since that time thousands of inscriptions have been translated, and the orthodox claim that this application of the acid test of archeology has proved the Bible story to be made of the pure gold of truth.

The layman has little notion of the vast sums of money and the great amount of patient toil being expended to read the riddles of the past. ... adequate knowledge of the great results that have rewarded this expenditure of means and toil. King Edward and Emperor William have taken great interest in the work, the British monarch as the patron of the Palestine Exploration Fund and the German Kaiser as the financial backer of the German researches in Mesopotamia. The United States does not lag behind, there being a dozen American societies and universities constantly engaged in the work.

The recent discoveries on the Nile island of Elephantine consisting of papyri deposited in the British Museum have added no mean testimony to the truth of the Scriptures. Many Biblical critics have insisted that the Books of Nehemiah and Ezra were more or less apocryphal. The Elephantine inscriptions according to learned Egyptologists dissipate these doubts by most forceful evidence. They are said to show that the Kings of Judea sold their subjects to the Egyptians ... taking horses for them in exchange. The Book of ... hitherto known only by name ... to have actually existed ... extracts from it were found in the Elephantine papyri. In the excavations at Memphis the palace of ... the Pharaoh Hophra of the Bible has been found and positively identified, thus demonstrating the truth of the references of Jeremiah.

Palace of Nebuchadnezzar.

In Palestine a very palace of Nebuchadnezzar has been laid bare by the pick and shovel of the archeologist. The German work is proceeding regularly, but it is believed that years will be required to uncover all the foundations of the buildings associated with the palace of the great king. That the task is a huge one is indicated by the fact that some of the walls unearthed are twenty-four yards thick. What is supposed to have been the royal state dining room, where Belshazzar beheld, too late, the hand writing on the wall, has been excavated. In connection with the feast of Belshazzar it is interesting to note that he was never King of Chaldea, the tablets found speaking of him until the day of his death at the hands of the Persian conqueror Darius, as "the King's son."

In the Book of II Kings it is recorded that Mesha, King of Moab, was a sheepmaster who paid an annual tribute of wool to the King of Israel, but that after the death of Ahab he rebelled. In 1868 there was found on the east side of the Dead Sea a block of black basalt which bore a record of this very revolt. Excavations made recently at Boghaz Kein the ancient capital of the Hittites have shown that the Bible description of that people was true. It appears that the archives of the Hittite government have been found and they show that the language of diplomatic intercourse in that day was the tongue of Babylon as it is that of France today. There was a regular correspondence, on bricks, between the Hittite kings and neighboring monarchs. Many of these brick missives have been found intact, constituting some of the most valuable "finds" in that region. As some of the letters are written both in the Hittite and the Babylonian languages, it is hoped that a key to the Hittite inscriptions will be found. The Hittite Empire was, only a few years ago, regarded by some critics as being entirely mythical.

Ancient Clay Tablets.

One of the most interesting discoveries in Biblical archeology was that of the Tel el Amarna letters in 1887. Some Egyptians digging there found a chamber containing several hundred clay tablets. They were carried in a sack to Luxor before their value was recognized and many of them were broken and destroyed in transit. About 200 of the tablets were saved and most of them have been translated. These tablets proved to be a diplomatic correspondence and they relate to the condition of affairs in Canaan before that land was promised to the Children of Israel.

The Old Testament is full of references to the High Places where the heathen worshiped. Even the prophets of the True God are shown to have gone into these High Places. When Saul was seeking his father's lost asses he went to consult the Seer Samuel. Samuel was going up to the High Place without the city to preside at a sacrificial meal. Saul accompanied him and took part in the feast which preceded his selection to be King of Israel. Later these High Places became seats of corruption, and efforts to abolish them were made by Hezekiah and Josiah. Nothing definite was known about these High Places until a few years ago when one was discovered in the hills above Petra, the ancient capital of Edom. Another High Place was found at Gezer, where monoliths and obelisks still remain, the very "standing stones" of the Canaanites which Israel was commanded to destroy and the like of which they were forbidden to rear beside the altars of Jehovah.

Work in archeological research in Bible lands is now highly exciting in its nature. While an untrained archeologist may occasionally find a Moabite Stone or something else of great value, the work above ground has been almost exhausted. Excavation is required and the work has been begun in many ancient sites. The ... of inexperienced workers may do great damage, therefore only skilled men are permitted to engage in the research. The European and American societies endeavor to regulate all excavations. In the Holy Land permits for excavations must be obtained from the Sultan of Turkey, and sometimes he imposes hampering conditions.

To archeology as a science the race is deeply indebted. The records of thousands of years of human endeavor have been rescued from oblivion. The twentieth century man may know the political situations, the laws, the amusements, the daily habits of his brothers who flourished under the light of civilization long since extinguished. And by many who value highly their belief in the record of the Scriptures the archeologists will be thanked for giving to the world the setting in which was enacted the great historical drama through which the religion of Jehovah has come down to living man.

Tomorrow—The American Oriental Society.

Fun for the Whole Family

IN THE MAGAZINE SECTION OF NEXT SUNDAY'S GAZETTE

From beginning to end, next Sunday's issue of The Literary Magazine of The Sunday Gazette is essentially a humor number. Its contributors rank among the most popular humorists of the present day, and there is something for the entertainment of men and women alike.

Leo Crane, one of the best short story writers of the present day, furnishes a very unique story in "Pickwick Acidts," narrating the humorous experiences of an innocent German who discovered that the bandages on an injured hand were transformed into an explosive more dangerous than gun cotton by the application of an overdose of liniment.

Marion Manville Pope tells a story under the title, "The Wilkinson Water Cure," that is full of laughs. It details the heroic methods employed by an exasperated wife to cure her husband of too much booze.

George Fitch, creator of the Ole football stories which made such a big hit in the Saturday Evening Post, has an unusually good department of humor in this issue. Mr. Fitch is at the very top among American humorists of the younger generation.

In addition to these and other short stories, you will find next week a strong special article on the invasion of the government service by women. The writer, El Bie Kean Foltz, the author of a book on the civil service as a career, presents an unusual array of facts in a most entertaining way.

YOU GET THIS BIG ILLUSTRATED MAGAZINE FREE WITH THE SUNDAY GAZETTE

TUB DRESSES

Tub dresses are really the most essential part of a woman's summer wardrobe and may be made of linen, gingham, madras or pongee. In style they should be rather plain, with such little elaboration in trimming as will launder well. The one-piece gown, though still a good model, is giving place to a belted gown which may be made in two parts if so desired. Band trimming, buttons and embroidery are used as trimming for wash dresses.

City Briefs

MARRIAGE—Jacob Geiselman and Miss Dulse Ladd Simpson were married yesterday afternoon at the home of Mrs. Reed, 936 East Moreno street, the Rev. A. W. Moore officiating.

APPOINTED MANAGER—It was announced yesterday that Archie M. Holmes, assistant Colorado Springs manager of the Texas Oil company, has been appointed Colorado manager to succeed L. P. Carson, resigned.

REPORT DENIED—There is no truth in the published report that Miss ... and Ross Johnson, both of this city, have been married. The report is said to have been the result of a joke played on the couple by friends.

LECTURE—Professor Mais of ... delivered a lecture last night at ... Hall on "Experiments with Alternating Currents." The lecture was illustrated by ... and ... was most interesting.

ORDERS SPECIAL TRAIN—W. S. Mason of Chicago has ordered a special train to take himself and a party of friends to Cripple Creek tomorrow morning when they arrive in this city over the Santa Fe railroad in a private car. The train will be made up of three cars and engine, and will cost $225 for the round trip.

Colorado City News

COLORED WOMAN GOES TO JAIL FOR DISTURBANCE

Mrs Selma Moore, a colored woman living on the south side, was sentenced to 15 days in the county jail in Justice Russell's court yesterday noon for attempted assault and disturbance. Mrs Moore was arrested Monday night by Constable Kimsey, when she entered the McCall saloon with a razor in search of her husband, Porter Moore, porter at the saloon.

GAME POSTPONED

Owing to the high wind, the game between the High school baseball team and the Deaf and Blind school, which was to have been played yesterday afternoon, was postponed to Friday afternoon A game with the Colorado Springs Y M C A has been arranged for tomorrow afternoon, and promises to be fast The High school team has been practicing hard for the last two weeks and is rounding into good form

FREIGHT CARS DERAILED

The derailing of five empty freight cars on the Midland road near Woodland Park yesterday noon blocked traffic for some time No one was injured The cars were rounding a curve, and when one went off the track the other four followed. The wrecker left for the scene of the trouble, and the road was cleared in a short time. This is the third derailment of freight cars in this place in the last week.

REAL ESTATE DEALS.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels

Voting Schedule

for districts outside of Colorado Springs, Colorado City and Manitou

D. and S. Gazette and Evening Herald, 2 years $21.60
Counts 25,000 votes.

NOT GOOD AFTER APRIL 2nd

Happy, Happy, Use TIZ

A Marvel for Sore Feet. Acts Right Off

Sore Feet? Never After Using TIZ

Good bye sore feet aching feet swollen feet sweaty feet smelling feet tired feet

Good-bye corns callouses and bunions and raw spots

You've never tried anything like TIZ before for your feet It is different from anything ever before sold

It acts at once and makes the feet feel remarkably fresh and sore-proof

TIZ is not a powder Powders and other foot remedies clog up the pores TIZ draws out all poisonous exudations which bring on soreness of the feet and is the only remedy that does TIZ cleans out every pore and glorifies the feet—your feet

You'll never limp again or draw up your face in pain, and you'll forget about your corns bunions and callouses You'll feel like a new person

If you don't find all this true after trying a box of TIZ you can get your money right back

TIZ is for sale at all druggists at 25 cents per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co, Dodge Bldg, Chicago, Ill.

up with a check room and additional room for the store at Seventeenth and Tremont streets

The scheme of improvements contemplates changes in the kitchen The ball room will be redecorated and refurnished and the ordinary will also be improved The latter will be used for the convention hall of the hotel All the tile work and the bronze and iron work will be thoroughly repaired

Manager Morse's idea is that the development of the American hotel demands lounging rooms with comforts and conveniences for the guests and the public The plans are largely with this end in view

Personal Mention

Dr D H Rice, who has been spending several days in Denver in connection with business of the Stratton estate, is expected home today

Dr C. B Wilcox, formerly pastor of the First Methodist Episcopal church of this city, and now occupying a pulpit in Denver, was in Colorado Springs yesterday to meet relatives from the west.

Mrs L W Cunningham, son and daughter have returned from Fort Collins, where they spent the winter The son, Wyborn has completed his first term at the Agricultural college and will spend the summer on his father's ranch near Calhan

C E Harrison a mining man from Gunnison county, who formerly held the W P H lease in Cripple Creek and who also was proprietor of the old Empire theater in Colorado Springs is spending a few days in the city

COMPLETED JUNE 10

No Expense Spared on Improvements at Brown Palace Hotel in Denver.

By June 10 the Brown Palace hotel in Denver will have been transformed into one of the most elegantly-appointed hotels in the west There will still be work to do before the completion of the plans and specifications, which are now practically agreed upon The cost of the undertaking which has been laid out by Manager C H Morse will run between $150,000 and $200,000

Not only will improvements be made in the physical arrangement of the hotel but the tone and character of the Brown will be raised and the service bettered so that it will rank with the best hostelries in the country Mr Morse spent a year traveling in Europe and he brings to the new scheme of things at the Brown the best ideas of the hotels in England and the continent

The granite work has been thoroughly cleaned by sand blast and the bronzes and iron work have been relacquered The three entrances will be fitted with revolving doors of bronze and these will be operated by electric motors so that when in use they will revolve slowly all the time Special attention has been paid to the plumbing There will be new fixtures in all the rooms that are now equipped with private baths new porcelain tubs bowls and lavatories All other rooms will be furnished with stationary pedestal lavatory and in addition there will be 40 more rooms provided with private baths making 17 private baths in the hotel the largest number of any hotel in Denver

A feature of the new equipment will be the new vacuum cleaning plant which will be installed in 30 days the contract having already been let

No Expense Spared

In the furnishings no expense has been spared to provide for the comfort and convenience of the guests New carpets have been laid in every room and new furniture will be provided

The balcony will probably be made into a large informal drawing room Heavy Austrian rugs will be spread on the rotunda floor These rugs are an inch thick and cost $20 a yard They are now being made in Austria from special designs for the hotel

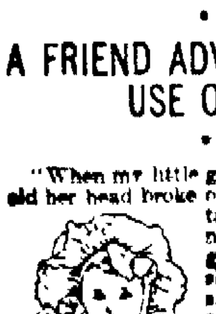

The old furniture in the office will be discarded and replaced by new furnishings of special design modeled after that in use in the Palace hotel, San Francisco It is the intention to make of the rotunda a large comfortable lounging room

The space now occupied by the barber shop will be used for a smoking room, and the cigar stand will be faced around opposite one of the entrances to this room The barber shop goes to the basement, with entrance on the Seventeenth street side The public lavatories now on the first floor will also be removed to the basement and their space will be taken

SCRATCHED HEAD TILL IT WAS RAW

Eczema Broke Out on Baby's Head Causing All Her Hair to Fall Out —Could Not Sleep—Spread of Fearful Disease Averted and Easy, Economical Cure Effected, for

A FRIEND ADVISED USE OF CUTICURA

"When my little girl was four months old her head broke out with eczema I tried everything but nothing did her any good. She could not sleep at night and she did nothing but scratch her head, which was like a raw piece of meat All of her hair fell out A friend of mine told me about Cuticura and the good it did for her little boy After the first cake of Cuticura Soap and box of Cuticura Ointment I used I could see a change I used just two cakes of Cuticura Soap and two boxes of Cuticura Ointment and my little girl's head is cured Her hair is growing fine and long and her skin is like velvet. Friends say that my quick action in using the Cuticura Remedies kept the eczema from spreading all over her body

"I still use the Cuticura Soap and always keep a box of Cuticura Ointment in the house I used the latter for my hands, which were so badly chapped that the skin would crack and bleed. I would cry with pain. My hands are entirely cured now. You certainly have my permission to publish this letter in any paper, for I know how wonderful Cuticura is. Mrs. F. Davis, 209 E. Indiana St., Chicago, Ill., Jan. 18, 1909."

Itching Devils Are little patches of eczema on the skin, scalp or hands which are instantly relieved and speedily cured, in the majority of cases, by warm baths with Cuticura Soap and gentle anointings of Cuticura Ointment, purest and sweetest of emollients.

William Manning trustees Judge L. W Cunningham, Dr A H Peters, W Wade Eubank degree master, E A Stelley, pianist Helen Young The next regular meeting of the legion will be held April 11 at which time the new officers will be installed

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering. Read what these women say:

Camden, N. J. —"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy.

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Buffalo, N. Y. —"I am writing to tell you that I am pleased with your medicines. I had been sick for a long time with prolapsus. I heard about Lydia E. Pinkham's Vegetable Compound, and I have found that it is the right kind of medicine for me. I felt relieved after taking one bottle and I kept on taking it till now I am well and strong, and am able to do my work."—Mrs. Henry Kossow, 472 Genesee St., Buffalo, N. Y.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

Mr. Walsh's Health Said to Be Improving

Thomas F Walsh and his magnificent home at Washington to which he raced from Texas

WASHINGTON March 29—Thomas F Walsh the Colorado millionaire who was brought back to his home here from San Antonio Tex in a serious condition has improved so much during the last 24 hours that his doctors are very optimistic. They say however that Mr Walsh will be confined to his house for a month at least One feature of his illness that has caused the loss of much sleep has been eliminated and he is now resting easily

PLEADS FOR ASSAILANT WITH HIS DYING BREATH

GRAND JUNCTION, Colo, March 29—Please do not arrest my assailant I do not want him to have any trouble This story will all come out some day and he will be shown innocent Just now let him down as easily as you can"

With this plea for leniency to the man who shot him, Peter Andreusi, the Italian who was wounded in a quarrel with one of his countrymen Sunday, died here today It has been ascertained that the man who fired the fatal shot was Baldo Pandarius, who lived with the dead man in a cabin where the two batched

The dying man said that the quarrel started over the payment of a grocery bill and that the following conflict between them was of a personal nature The alleged murderer has not been arrested and is thought to be in hiding somewhere in this neighborhood

KIDNEY AND BLADDER MISERY GOES AND YOUR LAME BACK FEELS FINE

Several Doses Will Make Your Out-of-Order Kidneys Act Fine

Hundreds of folks here are needlessly miserable and worried because of out-of-order kidneys, backache or bladder trouble

If you will take several doses of Pape's Diuretic all misery from a lame back, rheumatism, painful stitches, inflamed or swollen eyelids, nervous headache, irritability, sleeplessness, worn-out, sick feeling and other symptoms of sluggish or deranged kidneys will vanish.

Uncomfortable, frequent, urgent urination (especially at night) and all bladder misery ends.

This unusual preparation goes at once to the out-of-order kidneys, bladder and urinary system and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it

The moment you suspect any kidney or urinary disorder or feel rheumatism coming, begin taking this harmless medicine with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment means clean, healthy kidneys, bladder and urinary organs and you feel fine

Accept only Pape's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

BLIZZARD RETARDS MINING OPERATIONS

Smokestacks at El Paso Mine Blown Down.—World's Fair to Install Machines.

Special to the Gazette

CRIPPLE CREEK, March 29.—The blizzard prevailing this morning kept ore and coal teams in their barns and no ore was moved outside of the tonnage loaded out from mines directly connected with the railroads.

The big smokestacks at the El Paso mine were blown down and work will necessarily be suspended until the stacks can be re-erected. The miners employed by the company and the several sets of lessees were unable to work and returned to their homes.

All surface work on prospect or dump was suspended.

An electric compressor is shortly to be installed at the main shaft on the World's Fair group on the southwestern slope of Gold hill by E. J. White and associates. The lessees are now using hand steel, but will operate machines as soon as an air line can be carried below and the compressor is ready for use. White and company have been shipping a fair grade of ore, but their tonnage has been light. With machine drills in operation a much heavier tonnage will be made as the lessees have opened up a strong ore body in the stope above the 250-foot level.

Checks for the dividend of the El Paso Consolidated Gold Mining company will be mailed out on Saturday. The dividend amounts to $24,500 and will bring the total sum paid shareholders to $1,389,047. The company's holdings are operated under the leasing system and the March production will be the heaviest since the property was thrown open to outside operation.

Operations have been resumed on the Hoosier mine on Tenderfoot hill by lessees. The mine is owned by the Grafton Gold Mining company and in the earlier days of the district was classed with the producers of high grade mineral.

COLONIAL STOCK & GRAIN CO.
Cleveland, Ohio

STOCK PRICES RALLY WHEN WHEAT DECLINES

Breaking of Drouth in Southwest Influences Market for Securities as Well as for Grains.

NEW YORK, March 29.—The irregular and shifting movement of the stock market today left some uncertainty as to whether its action simply measures the completion of items in the progress of speculation or whether an unusual change in opinions on the outlook was being reflected.

The upward turn in prices was coincident with the fall of a cent per bushel in the price of wheat on news of showers in Kansas and weather predictions of sufficiently general rains to promise the breaking of the drouth.

The sudden death of Justice Brewer in view of the vital interest of great corporations in cases pending before the court had unfavorable influence on the market. Suggestion that the vacancy on the bench might involve a retrial of the American Tobacco and Standard Oil cases also was not relished.

The bond market did not improve today. Some of the high-grade bonds acted badly. Total sales, par value $4,7...,000. United States 3's coupon advanced ¼ per cent on call.

PREPARED FOR WORST

BREAKING OF DROUTH INDUCES WHEAT SALES

Prices Slump on Chicago Board but Part of Losses Is Regained in Closing Trades.

CHICAGO, March 29.—Likelihood of a general break in drouth conditions southwest induced liberal sales of wheat today and resulted in declines ranging from 1¼ to 1⅜@1⅞ compared with yesterday's final figures. At the close the net decline was from ⅝@¾ to 1¼c.

Corn and oats followed wheat in the downward plunge but regained all losses, closing figures each being ⅛ to ¼c above previous close.

Provisions closed heavy.

WOMEN'S WAYS OF EARNING MONEY.

A New Book Creating Widespread Interest.

By CYNTHIA W. ALDEN,
President General of the International Sunshine Society

This new book is being circulated widely throughout the country by The National Home Products League, an organization for the promotion of the welfare of the home, advancing plans and ideas whereby women may earn in the home without seeking employment in mills, factories, stores or shops.

The purpose of the book is to familiarize women with such methods as they are now using to earn a livelihood. It is creating widespread interest in the entire subject.

Mrs. Alden tells women how to earn money in womanly ways. One is struck by the number of original and novel occupations mentioned. Its value to every home from Maine to Oregon will be more than transient. It is breezy and inspires confidence and women will find it a comfort to have in the home. There is hardly a woman who may not some day be called upon to earn and this book may save many an anxious hour.

The general purpose of the League is to assist in home earning of women and to spread the organization over the entire country and wherever women may be found who have a desire to earn by home work, providing her work can be carried on according to fixed standards required by the League. The League then through its selling organization, will market her products.

The first efforts of this organization is to deal with home manufacture of goods which can be sold by the maker in her own locality, without the aid of the selling organization of the League. Later the manufacture of articles in the home to be sold widely through the League is to be taken up.

Those who are interested in earning and wish to consider the making and selling in their own locality, articles of home manufacture, will receive full information by writing to The National Home Products League, 21 Park Row, New York City.

If the book, "Women's Ways of Earning Money" is of interest, the cloth edition may be secured by mailing $1.00 to the League.

LOST—Old fashioned gold watch chain Saturday, on Tejon street. Description: long chain of old style gold links instead of making two short lengths. Valued as keepsake only. Liberal reward ... North Nevada.

GAZETTE 60C A MONTH.

What the Press Agents Say

A "HIRED MAN" WHO GETS A BIG SALARY

The wages of hired men are notoriously low, but there is an exception in the case of the versatile young gentleman who plays the part of a hired man in a clever little specialty that is on the Majestic program this week.

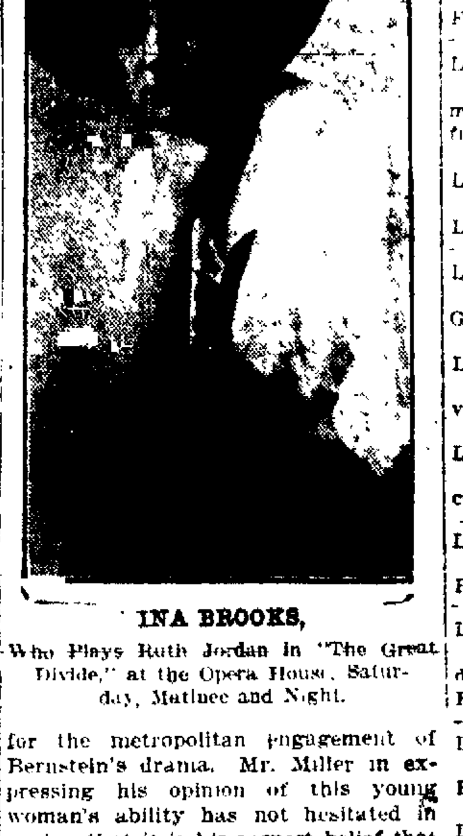

And everyone who has seen him cavorting about the stage in a way that never fails to win a laugh and heard his witticisms that are something new under the sun, agrees that he is entitled to get the kind of high-class salary that goes with a high-class comedian.

As a matter of fact the act of Walters and Murray is one of the best bits of comedy, singing and dancing, seen here in a long time and it is deservedly popular. The young lady in the case is a very pretty and demure bit of humanity and she knows how to act before the footlights.

"THE GREAT DIVIDE"

Its projectors have spared neither expense nor pains in their production of "The Great Divide," which will be the attraction at the Opera House, Saturday, matinee and night.

The cast is one of uniform excellence and includes only artists of ability who have made reputations in the theatrical world. Miss Ina Brooks, who assumes the part of Ruth Jordan in the play, has been under contract with Henry Miller for the past two years, and was loaned to Mr. Frohman

INA BROOKS,
Who Plays Ruth Jordan in "The Great Divide," at the Opera House, Saturday, Matinee and Night.

for the metropolitan engagement of Bernstein's drama. Mr. Miller in expressing his opinion of this young woman's ability has not hesitated in saying that it is his earnest belief that in Miss Brooks we have a future great American actress.

Edwin Jones, who acts the part of Stephen Grant in the play, is an actor who comes by his ability through years of experience, and has supported some of the biggest stars on the English speaking stage. Miss Eleanor Parker, who plays the part of Polly Jordan, although a girl in her teens, has accomplished as much in her short career of less than three years on the stage as the average actress does in a lifetime. After winning the scholarship and medal of a prominent Boston school of elocution and art she became the leading ingenue of the Castle Square Theater company in the "Hub" city, and it was there that her work came under the direct attention of William Vaughn Moody (author of "The Great Divide") who communicated his "find" to the management and in turn was authorized to engage Miss Parker at once.

Those who have seen Miss Parker play Polly say that her performance is a most delightful one and creates a lasting impression upon the auditor. The other members of the cast of the play, which has been termed by the press of the country as "the long awaited great American play," include such prominent people as A. Willard Grass, Vernon McDonald, Mark Harrison, Carter Ross, Guy Graham, Willard Grant, Frederick Gilbert and Ione Chamberlain.

Seats tomorrow.

"THE THIEF"

"The Thief," the extraordinary French society play by Henry Bernstein that Charles Frohman produces at the Opera House Monday, with a strong company headed by Herbert Kelcey and Effie Shannon, is a work that has been the topic of much discussion and criticism during the past three or more years in this country and abroad. Though a society drama somewhat the sex problem does not enter the story at all, neither is it a case of marriage and infidelity.

On the contrary, the plot relates the attempts to which a wife goes in order to hold her husband's love which she fears is fading. Knowing his love for dress and finely appareled women she steals some money wherewith to purchase handsome garments in which to charm him. This error leads her into committing another unwillingly, and she then seeks to retrace her steps but only sinks deeper into the mire.

Eventually she is rescued, and there is a general reconciliation. This is the play in brief, wonderfully condensed by the author into three acts with genius and absorbing interest.

Big G ... for ... or ulcerations of all mucous membranes, catarrhal discharges from nose, throat or urinary organs. Sold by Druggists or in plain wrapper, express prepaid, on receipt of $1, or three bottles, $2.75. Booklet on request.
The Evans Chemical Co. ... U. S. A.

Ladies Only

Would You Like to Own Your Own Home?

We are fully alive to the fact that this is a silly question to ask of anyone, leastwise of the women folks; inasmuch as you are the member of the family who spends the greater part of time in the home, therefore, you are the one directly interested in the question of whether you squander the family resources in the payment of rent or own your own home. Your answer to the above question being

YES

We would respectfully call your attention to the sale of lots in east Colorado City addition, also to the sale of acre tracts in beautiful Ramona Addition. We particularly wish to impress you with the fact that these properties are really selling for less than they are worth, considering that they are only a few moments' walk of car line, and are contiguous to west Colorado Springs. Near good schools, presenting, as they do, all the advantages of both a city and a rural life; they offer exceptional opportunities for profitable and safe investment of your money. Don't you think it would pay you to investigate

OUR PLAN?

THE LOTS, ALSO THE ACRE TRACTS, ARE BEING SOLD ON A SMALL PAYMENT DOWN AND THEREAFTER,

"A Little Each Month"

Really! Aren't you interested? Suppose you do not care to build your home at present don't you think it advisable to at least make a start by securing your lots? You will never have a more golden opportunity to purchase a select location than is now offered you, and at the ridiculously low prices at which these properties are now selling you will miss the chance of a lifetime to secure a real bargain. We invite you to call at our office for prices, terms and full particulars.

Kinsman & Wolff

City Briefs

Dr. Klein, Osteopath, 408 Ex. Bank Bldg.

BUSONI, greatest living pianist, at Opera House, Thursday evening. Tickets at 23 East Kiowa.

BIRTH—A son was born to Prof. and Mrs. Otto F. Dubach, 1425 North Weber street, Sunday. Both mother and child are doing nicely.

TO WED—The following local couples were granted marriage licenses yesterday: Clem A. Clay and Bertha Schapp, Jacob Gieselman and Daisy L. Simpson.

INCORPORATION — Ben Brower, John Hill, Sam Schlesinger and Fred Schrader yesterday incorporated the Colorado Brick association with a capitalization of $5,000. Offices will be maintained here.

BUILDING PERMITS The following building permits were granted yesterday: W. S. Heath, $2,000, for five-room frame dwelling at 824 East St Vrain street; T. E. Freeman, $800, for four-room frame dwelling at 405 Cedar street.

IMPROVING—Noble Johnson, who was stabbed by George Hatch last Saturday in a fight, is recovering at St Francis hospital. The condition of James Anthony of the health department, who is ill of blood poisoning, is improving, and Dr. P. O. Hunford, who is attending him, is confident that he will recover.

LONGER HOURS—Beginning April 1 the union barber shops in the city will open at 7 o'clock in the morning and close at 8 o'clock in the evening, making the opening time an hour earlier, and the closing time an hour later. This schedule continues until October 1, when the present hours go into effect again.

IMPROVING OFFICE—A new plate glass front is being installed at the Colorado and Southern railroad offices on East Pikes Peak avenue at a cost of about $2,000. The Adams Express company is soon to open an office with the railroad company.

MEETING POSTPONED—The parish meeting of Grace Episcopal church, which was to have been held last Monday evening, was postponed to next Monday evening at 8 o'clock Word has been received from the rector, the Rev. Henry Rutgers Remsen that he will return before next Saturday from Texas.

Dr. Dennis, dentist. 30 S. Tejon St.
